As required by the Privacy Act, 5 U.S.C. 552a, the Commission also published a SORN, FCC/CGB-1 "Informal Complaints, Inquiries, and Requests

Privacy Impact Assessment: The FCC completed a Privacy Impact Assessment (PIA) on June 28, 2007. It may be reviewed at <https://www.fcc.gov/general/privacy-act-information#pia>. The Commission is in the process of updating the PIA to incorporate various revisions to it as a result of revisions to the SORN.

Needs and Uses: On December 21, 2001, the Commission released the 2001 TRS Cost Recovery Order, document FCC 01-371, published at 67 FR 4203, January 29, 2002, in which the Commission:

- (1) Directed the Interstate Telecommunications Relay Services (TRS) Fund (TRS Fund) administrator to continue to use the average cost per minute compensation methodology for the traditional TRS compensation rate;
- (2) required TRS providers to submit certain projected TRS-related cost and demand data to the TRS Fund administrator to be used to calculate the rate; and
- (3) directed the TRS Fund administrator to expand its form for providers to itemize their actual and projected costs and demand data, and to include specific sections to capture speech-to-speech (STS) and video relay service (VRS) costs and minutes of use.

In 2003, the Commission released the 2003 Second Improved TRS Order, published at 68 FR 50973, August 25, 2003, which among other things required that TRS providers offer certain local exchange carrier (LEC)-based improved services and features where technologically feasible, including a speed dialing requirement which may entail voluntary recordkeeping for TRS providers to maintain a list of telephone numbers. See also 47 CFR 64.604(a)(3)(vi)(B).

In 2007, the Commission released the Section 225/255 VoIP Report and Order, published at 72 FR 43546, August 6, 2007, extending the disability access requirements that apply to telecommunications service providers and equipment manufacturers under 47 U.S.C. 225, 255 to interconnected voice over internet protocol (VoIP) service providers and equipment

manufacturers. As a result, under rules implementing section 225 of the Act, interconnected VoIP service providers are required to publicize information about telecommunications relay services (TRS) and 711 abbreviated dialing access to TRS. See also 47 CFR 64.604(c)(3).

In 2007, the Commission also released the 2007 Cost Recovery Report and Order and Declaratory Ruling, published at 73 FR 3197, January 17, 2008, in which the Commission:

(1) Adopted a new cost recovery methodology for interstate traditional TRS and interstate STS based on the Multi-state Average Rate Structure (MARS) plan, under which interstate TRS compensation rates are determined by weighted average of the states' intrastate compensation rates, and which includes for STS additional compensation approved by the Commission for STS outreach;

(2) requires STS providers to file a report annually with the TRS Fund administrator and the Commission on their specific outreach efforts directly attributable to the additional compensation approved by the Commission for STS outreach.

(3) adopted a new cost recovery methodology for interstate captioned telephone service (CTS), as well as internet Protocol captioned telephone service (IP CTS), based on the MARS plan;

(4) adopted a cost recovery methodology for internet Protocol (IP) Relay based on price caps;

(5) adopted a cost recovery methodology for VRS that adopted tiered rates based on call volume;

(6) clarified the nature and extent that certain categories of costs are compensable from the Fund;

and

(7) addressed certain issues concerning the management and oversight of the Fund, including prohibiting financial incentives offered to consumers to make relay calls.

In 2018, the Commission released the IP CTS Modernization Order, published at 83 FR 30082, June 27, 2018, in which the Commission:

(1) Determined that it would transition the methodology for IP CTS cost recovery from the MARS plan to cost-based rates and adopted interim rates; and

(2) added two cost reporting requirements for IP CTS providers: (i) In annual cost data filings and supplementary information provided to the TRS Fund administrator, IP CTS providers that contract for the supply of services used in the provision of TRS, shall include information about payments under such contracts, classified according to the substantive cost categories specified by the TRS Fund administrator; and (ii) in the course of an audit or otherwise upon demand, IP CTS providers must make available any relevant documentation. 47 CFR 64.604(c)(5)(iii)(D)(1), (6).

OMB Control Number: 3060-1215.

Title: Use of Spectrum Bands Above 24 GHz for Mobile Radio Services.

Form Number: N/A.

Type of Review: Revision of an existing collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 280 respondents; 280 responses.

Estimated Time per Response: .5-10 hours.

Frequency of Response: On occasion reporting requirement; third party disclosure requirement; upon commencement of service, or within 3 years of effective date of rules; and at end of license term, or 2024 for incumbent licensees.

Obligation to Respond: Statutory authority for this collection are contained in sections 1, 2, 3, 4, 5, 7, 10, 201, 225, 227, 301, 302, 302a, 303, 304, 307, 309, 310, 316, 319, 332, and 336 of the Communications Act of 1934, 47 U.S.C. 151, 152, 153, 154, 155, 157, 160, 201, 225, 227, 301, 302, 302a, 303, 304, 307, 309, 310, 316, 319, 332, 336, Section 706 of the Telecommunications Act of 1996, as amended, 47 U.S.C. 1302.

Total Annual Burden: 615 hours.

Total Annual Cost: \$450,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: In this collection, the Commission adopted new licensing, service, and technical rules under Part 30 of the Commission's Rules for the 24.25-24.45 GHz and 24.75-25.25 GHz bands (collectively, 24 GHz band), the 27.5-28.35 GHz band (28 GHz band), the 38.6-40 GHz band (39 GHz band), the 37-38.6 GHz band (37 GHz band), the 47.2-48.2 GHz band (47 GHz band). Therefore, the Commission expanded the scope of the rules to include additional bands. In turn, since the rules now apply in additional bands, the number of respondents, the annual number of responses, annual burden hours and annual costs will increase for this collection. The Commission also authorizes unlicensed use in the 64-71 GHz band under Part 15. In so doing, the Commission created a consistent framework across all of the bands that can serve as a template for additional bands in the future.

The rules adopted by the Commission, in FCC 17-152 and FCC 18-73 revise the previously approved information collection relating to Section 25.136 of the Commission's Rules. The Commission added the 24 GHz band and the 47 GHz band (47.2-48.2 GHz) to the bands that are subject to the framework for sharing between the Upper Microwave Flexible Use Service (UMFUS) and the Fixed-Satellite Service (FSS) established in that rule. In addition, the Commission modified the sharing criteria between UMFUS and FSS to facilitate deployment of FSS earth stations in smaller markets and decrease the possibility of conflicts between UMFUS and FSS.

Section 25.136—This rule contains both a third-party coordination requirement and a filing requirement. Both requirements are necessary to ensure that Fixed Satellite Service earth stations can receive interference protection without having an undue impact on terrestrial deployment.

Federal Communications Commission.
