**SUPPLEMENTARY INFORMATION:**

**I. Background**

The GPAC and the LPAC are statutorily mandated advisory committees that advise PHMSA on proposed gas pipeline and hazardous liquid pipeline safety standards, respectively, and their associated risk assessments. The committees are established in accordance with the Federal Advisory Committee Act (5 U.S.C. App. 2, as amended) and 49 U.S.C. 60115. The committees consist of 15 members with membership evenly divided among federal and state governments, the regulated industry, and the public. The committees advise PHMSA on the technical feasibility, reasonableness, cost-effectiveness, and practicability of each proposed pipeline safety standard.

**II. Meeting Details and Agenda**

The GPAC will be considering the gathering line component of the proposed rule titled: “Safety of Gas Transmission and Gathering Pipelines,” that was published in the Federal Register on April 8, 2016, (81 FR 20722) and the associated regulatory analysis. The rule proposes to repeal the use of API Recommended Practice 80 for gathering lines, apply Type B requirements along with emergency requirements to newly regulated greater than 8-inch Type A gathering lines in Class 1 locations, and extend the reporting requirements to all gathering lines.

The GPAC and LPAC will meet in a joint session to discuss relevant policy issues and topics. The topics will include: pipeline safety public awareness; regulatory update; Voluntary Information-sharing System Working Group update; research and development projects update; and other relevant topics.

PHMSA will post the agendas on the meeting page at:

<https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=143>.

Issued in Washington, D.C. on December 12, 2018, under authority delegated in 49 CFR 1.97.

**Alan K. Mayberry,**

*Associate Administrator for Pipeline Safety.*
