They will also review the 2019 scallop workload based on priorities approved by the Council at its December meeting in Newport, RI, and discuss potential timelines for completing each task. The panel will review a draft scoping document for an action to address NGOM Scallop Management and LAGC IFQ trip limit. They also plan to discuss the potential harvest of small scallops in the NLS-S deep as part of 2020 scallop specifications. Additionally, they will discuss potential elements of an action to mitigate impacts on yellowtail flounder. The panel will also discuss potential approaches to evaluate the scallop rotational management program. Other business may be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
