Comments regarding these information collections are best assured of having their full effect if received by [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION]. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

TITLE: Egg, Chicken, and Turkey Surveys

OMB CONTROL NUMBER: 0535-0004

SUMMARY OF COLLECTION: The primary function of the National Agricultural Statistics Service (NASS) is to prepare and issue current official State and national estimates of crop and livestock production. Thousands of farmers, ranchers, agribusinesses and others voluntarily respond to nationwide surveys about crops, livestock, prices, and other agricultural activities. Estimates of egg, chicken, and turkey production are in an integral part of this program. General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204. This statute specifies the “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which she can obtain ... by the collection of statistics ... and shall distribute them among agriculturists”. Information published from the surveys in this docket is needed by USDA economists and government policy makers to ensure the orderly marketing of broiler chickens, turkeys and eggs.

NEED AND USE OF THE INFORMATION: Statistics on these poultry products contribute to a comprehensive program of keeping the government and poultry industry abreast of anticipated changes. All of the poultry reports are used by producers, processors, feed dealers, and others in the marketing and supply channels as a basis for their production and marketing decisions. Government agencies use these estimates to evaluate poultry product supplies.
