Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

TITLE: Stocks Reports

OMB CONTROL NUMBER: 0535-0007

SUMMARY OF COLLECTION: The primary function of the National Agricultural Statistics Service (NASS) is to prepare and issue current official State and national estimates of crop and livestock production, stocks, disposition, and prices. As part of this function, estimates are made for stocks of off-farm grains and oilseeds, potatoes, peanuts, hops, and rice. Grain and oilseed stocks in all positions (on-farm and off-farm) are estimated quarterly. Grain stock estimates are one of the most important NASS estimates, which are watched closely by growers and industry groups. General authority for data collection is granted under U.S. Code Title 7, Section 2204. The Hop Growers of America provides the data collection for much of the production information because of sensitivity issues an impartial third party, NASS, collects stocks and price information.

NEED AND USE OF THE INFORMATION: NASS collects information to administer farm program legislation and make decisions relative to the export-import programs. Estimates of stocks provide essential statistics on supplies and contribute to orderly marketing. Farmers and agribusiness firms use these estimates in their production and marketing decisions. Collecting this information less frequently would eliminate data needed by the government, and industry and farmers to keep abreast of changes at the State and national level.
