SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to

the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Case Service Report (RSA-911)

OMB Control Number: 1820-0508

Type of Review: A revision of an existing information collection

Respondents/ Affected Public: State, Local, and Tribal Governments

Total Estimated Number of Annual Responses: 78

Total Estimated Number of Annual Burden Hours: 5,650

Abstract: The RSA-911 is used to collect individual level data on Vocational Rehabilitation (VR) program participants on a quarterly basis. The data collected in this report are mandated by section 101(a)(10) and 607 of the Rehabilitation Act of 1973 (Act), as amended by title IV of the Workforce Innovation and Opportunity Act (WIOA) and section 116(d) of WIOA. In addition, RSA uses data reported through this data collection to support its other responsibilities under the Act. Section 14(a) of the Act calls for the evaluation of programs authorized under the Act, as well as an assessment of the programs' effectiveness in relation to cost. Many of these evaluation studies have utilized RSA-911 data. RSA also uses data captured through the RSA-911 during the conduct of both the annual review and periodic onsite monitoring of VR agencies required by section 107 of the Act to examine the effectiveness of program performance.

Other important management activities, such as the provision of technical assistance, program planning, and budget preparation and development, are greatly enhanced through the use of RSA-911 data. In addition, RSA uses RSA-911 data in the exchange of data under a data sharing agreement with the Social Security Administration as required by section 131 of the Act. Finally, the RSA-911 is considered to be one of the most robust databases in describing the demographics of the disabled population in the country and as such is used widely in researchers' disability-related analyses and reports.

The revisions to this instrument include the removal of duplicative data elements as well as those not specifically required by statute or used for statutorily required activities. RSA is proposing to remove 66 elements from the current collection. RSA proposed the addition of 15 elements, 7 of which are related to adding a new service to track VR participant participation in Apprenticeships. RSA is also adding several elements by request of the VR agencies: Date of Initial IPE, Date of IPE Extension, and Date all Pre-Employment Transition Services Were Discontinued. These changes yield a net decrease in 251,000 burden hours in data collection and 1,488 burden hours in data reporting nationally.
