*TITLE:* Generic Clearance of Survey Improvement Projects

*OMB CONTROL NUMBER:* 0535-0248

*SUMMARY OF COLLECTION:* The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue State and national estimates of crop and livestock production, economic and environmental statistics related to agriculture and to conduct the Census of Agriculture under the general authority of Title 7 U.S.C. Sec.2204. The purpose of this generic clearance is to allow NASS to respond quickly to emerging issues and data collection needs. NASS will continue to develop, test, evaluate, adopt, and use state-of-the-art techniques to cover a broad range of topics designed to improve NASS' data collection on agriculture.

*NEED AND USE OF THE INFORMATION:* NASS will use a number of survey improvement techniques, as appropriate to the individual project under investigation. These include focus groups, cognitive and usability laboratory and field techniques, exploratory interviews, behavior coding, respondent debriefing, pilot surveys and split-panel tests. The information gathered will be used mainly for questionnaire development and other research and evaluation. Additionally, NASS anticipates the benefit of increased response rates through improved survey design, a goal tied directly to addressing OMB requirements for higher response rates and measurement of non-response bias.

*TITLE:* Quick Response for Cooperative-funded Surveys Generic Clearance

*OMB CONTROL NUMBER:* 0535-NEW

*SUMMARY OF COLLECTION:* The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue State and national estimates of crop and livestock production, economic and environmental statistics related to agriculture and to conduct the Census of Agriculture under the general authority of Title 7 U.S.C. Sec.2204. This generic clearance covers a variety of surveys that will provide valuable statistics to sponsoring cooperators. These data are needed by the cooperators in time frames that make individual clearances impractical.

*NEED AND USE OF THE INFORMATION:* NASS would like to conduct up to 15 surveys each year in response to requests from cooperators who have data needs that cannot be met through NASS's annual Congressional appropriations. NASS would like to include surveys that would cover topics such as: farm management practices, food safety, workplace safety, conservation and land use practices, chemical use management practices, crop quality, agri-tourism, local foods, or other specific agricultural promotion programs.
