SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the National Safety Stand-Down to Prevent Falls in Construction information collection. The National Safety Stand-Down to Prevent Falls in construction raises fall hazard awareness across the country in an effort to stop fall fatalities and injuries. Participants, mainly employers, download a Certificate of Participation by completing a simple eight question online survey. The survey is the primary means OSHA will have for validating participation in the Stand-Down. Occupational Safety and Health Act of 1970 section 21 authorizes this information collection. *See* 29 U.S.C. 670.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition,

notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the *Federal Register* on January 12, 2018 (83 FR 1630).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201803-1218-001. The OMB is particularly interested in comments that:
