*History and description of the remains*

At an unknown date, human remains representing, at minimum, two individuals were removed from an undetermined location or locations, probably in Saginaw County, MI. No known individuals were identified. The human remains were found in the Peacock collection. There are no known accession or other records indicating when or by whom this collection was deposited at the Historical Society of Saginaw County. Some of the archeological materials in the Peacock collection are known to have been collected from various sites in Saginaw County, MI, and the same is probably true for the human remains. However, no notes or other documentation describing the circumstances of discovery of the human remains are known to exist. The fragmentary human remains are determined to be Native American based on their being part of a larger collection of archeological materials comprised primarily of prehistoric Native American artifacts. No associated funerary objects are present.
