DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

Determination Pursuant to Section 102 of the
Illegal Immigration Reform and Immigrant Responsibility Act of 1996,
as Amended

AGENCY: Office of the Secretary, Department of Homeland Security.

ACTION: Notice of determination.

SUMMARY: The Secretary of Homeland Security has determined, pursuant to law, that it is necessary to waive certain laws, regulations, and other legal requirements in order to ensure the expeditious construction of barriers and roads in the vicinity of the international land border near San Luis, Arizona.

DATES: This determination takes effect on [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

SUPPLEMENTARY INFORMATION: Important mission requirements of the Department of Homeland Security (“DHS”) include border security and the detection and prevention of illegal entry into the United States. Border security is critical to the nation’s national security.

Recognizing the critical importance of border security, Congress has mandated DHS to achieve and maintain operational control of the international land border. Secure Fence Act of 2006, Public Law 109-367, section 2, 120 Stat. 2638 (Oct. 26, 2006) (8 U.S.C. 1701 note). Congress defined “operational control” as the prevention of all unlawful entries into the United States, including entries by terrorists, other unlawful aliens, instruments of terrorism, narcotics, and other contraband. Id. Consistent with that mandate from Congress, the President’s Executive Order on Border Security and Immigration Enforcement Improvements directed executive
departments and agencies to deploy all lawful means to secure the southern border. Executive Order 13767, section 1. In order to achieve that end, the President directed, among other things, that I take immediate steps to prevent all unlawful entries into the United States, including the immediate construction of physical infrastructure to prevent illegal entry. Executive Order 13767, section 4(a).

Determination and Waiver:

Section 1

The United States Border Patrol’s Yuma Sector is an area of high illegal entry. In fiscal year 2018 alone, the United States Border Patrol (“Border Patrol”) apprehended over 26,000 illegal aliens in the Yuma Sector. In that same year Border Patrol seized approximately 8,100 pounds of marijuana, over 78 pounds of cocaine, over 102 pounds of heroin, and over 1,700 pounds of methamphetamine in the Yuma Sector.

In order to satisfy the need for additional border infrastructure in the Yuma Sector, DHS will take action to replace existing barriers. The barrier replacement will occur within two segments of the border in the Yuma Sector. The two segments of the border within which such construction will occur are referred to herein as the “project area” and are more specifically described in Section 2 below. Congress provided funding for this project in the Fiscal Year 2018 DHS Appropriations Act, Public Law 115-141, Division F, Title II, section 230.

The replacement of primary fencing within the project area will further Border Patrol’s ability to deter and prevent illegal crossings. The existing barriers were constructed between the early-to-mid 1990’s and mid-to-late 2000’s. The existing barriers will be replaced with an eighteen to thirty foot barrier that employs a more operationally effective design that is intended to meet Border Patrol’s operational requirements. In addition, DHS will, where necessary make improvements to existing roads within the project area.

Section 2

I determine that the following areas in the vicinity of the United States border, located in the State of Arizona within the United States Border Patrol’s Yuma Sector, are areas of high illegal entry (the “project area”):
• Starting west of the intersection of County 21 ½ Street and West Main Canal Road extending south and generally following the Colorado River approximately one and six tenths (1.6) miles to the point where the Colorado River crosses the international border between the United States and Mexico.

• Starting approximately one mile west of the San Luis, Arizona Land Port of Entry and extending east to approximately two and one half (2.5) miles east of Border Monument 198.

There is presently an acute and immediate need to construct physical barriers and roads in the vicinity of the border of the United States in order to prevent unlawful entries into the United States in the project area, pursuant to sections 102(a) and 102(b) of IIRIRA. In order to ensure the expeditious construction of the barriers and roads in the project area, I have determined that it is necessary that I exercise the authority that is vested in me by section 102(c) of IIRIRA.

Accordingly, pursuant to section 102(c) of IIRIRA, I hereby waive in their entirety, with respect to the construction of roads and physical barriers (including, but not limited to, accessing the project area, creating and using staging areas, the conduct of earthwork, excavation, fill, and site preparation, and installation and upkeep of physical barriers, roads, supporting elements, drainage, erosion controls, safety features, lighting, cameras, and sensors) in the project area, all of the following statutes, including all federal, state, or other laws, regulations, and legal requirements of, deriving from, or related to the subject of, the following statutes, as amended: The National Environmental Policy Act (Pub. L. 91-190, 83 Stat. 852 (Jan. 1, 1970) (42 U.S.C. 4321 et seq.)); the Endangered Species Act (Pub. L. 93-205, 87 Stat. 884 (Dec. 28, 1973) (16 U.S.C. 1531 et seq.)); the Federal Water Pollution Control Act (commonly referred to as the

This waiver does not revoke or supersede previous waivers published in the Federal Register on January 19, 2007 (72 FR 2535) and April 8, 2008 (73 FR 19078) which shall remain in full force and effect in accordance with their terms. I reserve the authority to execute further waivers from time to time as I may determine to be necessary under section 102 of IIRIRA.

Dated: April 18, 2019.

Kevin K. McAleenan,

Acting Secretary of Homeland Security.
