SUPPLEMENTARY INFORMATION: The Administrative Conference of the United States makes recommendations to federal agencies, the President, Congress, and the Judicial Conference of the United States regarding the improvement of administrative procedures (5

U.S.C. 594). The membership of the Conference, when meeting in plenary session, constitutes the Assembly of the Conference (5 U.S.C. 595).

Agenda: In addition to receiving updates on past, current, and pending Conference initiatives (including a presentation on the Conference's research into the use of artificial intelligence in federal agencies), the Assembly will consider minor amendments to its bylaws and four proposed recommendations which are described below:

Agency Guidance Through Interpretive Rules. This proposed recommendation lists steps that agencies can take to offer members of the public the opportunity to propose alternative approaches to those presented in an interpretive rule and to encourage, when appropriate, public participation in the adoption or modification of interpretive rules. It largely extends to interpretive rules the best practices for statements of policy adopted in Recommendation 2017-5, *Agency Guidance Through Policy Statements*, with appropriate modifications to account for instances in which there are differences between interpretive rules and statements of policy.

Selection of Administrative Law Judges. This proposed recommendation addresses the processes and procedures that agency heads should consider establishing when exercising their authority under Executive Order 13843 to hire administrative law judges (ALJs). It encourages agencies to advertise ALJ positions in order to reach a wide pool of applicants, to publish minimum qualifications and selection criteria for ALJ hiring, and to develop policies for the review of ALJ applications.

Public Availability of Agency Guidance. This proposed recommendation offers agencies best practices for promoting widespread availability of guidance documents. It urges agencies to: develop and disseminate internal policies for publishing, tracking, and obtaining input on guidance documents; post guidance documents online in a manner that facilitates public access;

and undertake affirmative outreach to notify members of the public of new or updated guidance documents.

Revised Model Rules for Implementation of the Equal Access to Justice Act. This proposed recommendation proposes a substantial revision of the Conference's 1986 model rules governing agency procedures for the submission and consideration of applications under the Equal Access to Justice Act, which requires the government to pay the expenses of certain prevailing parties in agency adjudications. The revised model rules reflect, among other things, changes in law and agency practice since 1986.
