At the end of the comment period for this notice, the FFIEC and the agencies will review any comments received to determine whether to modify the proposal in response to comments. As required by the PRA, the agencies will then publish a second Federal Register notice for a 30-day comment period and submit the final FFIEC 102 to OMB for review and approval.

General Description of Reports

The Market Risk Regulatory Report for Institutions Subject to the Market Risk Capital Rule (FFIEC 102) is filed quarterly with the agencies and provides information for market risk institutions, defined for this purpose as those institutions that are subject to the market risk capital rule as incorporated into Subpart F of the agencies' regulatory capital rules¹ (market risk institutions). Each market risk institution is required to file the FFIEC 102 for the agencies' use in assessing the reasonableness and accuracy of the institution's calculation of its minimum capital requirements under the market risk capital rule and in evaluating the institution's capital in relation to its risks. Additionally, the market risk information collected in the FFIEC 102:

(a) permits the agencies to monitor the market risk profile of, and evaluate the impact and competitive implications of, the market risk capital rule on individual market risk institutions and the industry as a whole; (b) provides the most current statistical data available to identify areas of market risk on which to focus for onsite and offsite examinations; (c) allows the agencies to assess and monitor the levels and components of each reporting institution's risk-based capital

¹ [12 CFR 3.201](#) (OCC); [12 CFR 217.201](#) (Board); and [12 CFR 324.201](#) (FDIC). The market risk capital rule generally applies to any banking institution with aggregate trading assets and trading liabilities equal to (a) 10 percent or more of quarter-end total assets or (b) \$1 billion or more.

requirements for market risk and the adequacy of the institution's capital under the market risk capital rule; and (d) assists market risk institutions in validating their implementation of the market risk framework.
