B. Submitting Comments

Please include Docket ID **NRC-2019-0067** in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov/> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Reporting of Defects and Noncompliance.
2. *OMB approval number:* 3150-0035.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.
5. *How often the collection is required or requested:* On occasion. Defects and noncompliances are reportable as they occur.
6. *Who will be required or asked to respond:* Individual directors and responsible officers of firms constructing, owning, operating, or supplying the basic components of any facility or activity licensed under the Atomic Energy Act of 1954, as amended, or the Energy Reorganization Act of 1974, as amended, to report Immediately to the NRC the discovery of defects in basic components or failures to comply that could create a substantial safety hazard.
7. *The estimated number of annual responses:* 800 (88 reporting responses + 357 third-party disclosure responses + 355 recordkeepers).
8. *The estimated number of annual respondents:* 355.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 32,083 (6,500 reporting hours + 25,215 hours recordkeeping + 368 hours third party disclosure).
10. *Abstract:* Part 21 of title 10 of the *Code of Federal Regulations* (10 CFR), requires each individual, corporation, partnership, commercial grade dedicating entity, or

other entity subject to the regulations in this part to adopt appropriate procedures to evaluate deviations and failures to comply to determine whether a defect exists that could result in a substantial safety hazard. Depending upon the outcome of the evaluation, a report of the defect must be submitted to the NRC. Reports submitted under 10 CFR part 21 are reviewed by the NRC staff to determine whether the reported defects or failures to comply in basic components at the NRC licensed facilities or activities are potentially generic safety problems. These reports have been the basis for the issuance of numerous NRC Generic Communications that have contributed to the improved safety of the nuclear industry. The records required to be maintained in accordance with 10 CFR part 21 are subject to inspection by the NRC to determine compliance with the subject regulation.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 25th day of June 2019.

For the Nuclear Regulatory Commission.

Kristen E. Benney,

Acting NRC Clearance Officer,

Office of the Chief Information Officer.
