Needs and Uses: The Commission is requesting approval for this revised collection. In March 2016, the Commission adopted significant reforms to place the universal service support program on solid footing for the next decade to preserve and advance voice and broadband service in areas served by rate-of-return carriers. Connect America Fund; ETC Annual Reports and Certifications; Establishing Just and Reasonable Rates for Local Exchange Carriers; Developing a Unified Intercarrier Compensation Regime,

WC Docket Nos. 10-90, 14-58, 07-135, 05-337, 03-109; CC Docket Nos. 01-92, Report and Order, Order and Order on Reconsideration, and Further Notice of Proposed Rulemaking, FCC 16-33 (*2016 Rate-of-Return Reform Order*).

The Commission adopted a voluntary path for rate-of-return carriers to receive model-based support in exchange for making a commitment to deploy broadband-capable networks meeting certain service obligations to a pre-determined number of eligible locations in a state. By creating a voluntary pathway to model-based support, the Commission will spur new broadband deployment in rural areas. In several subsequent orders and public notices, the Commission has further refined this voluntary pathway, and in the December 2018 Rate-of-Return Reform Order, the Commission adopted a second pathway for carriers that did not elect the first pathway. Connect America Fund; ETC Annual Reports and Certifications; Establishing Just and Reasonable Rates for Local Exchange Carriers; Developing a Unified Intercarrier Compensation Regime, WC Docket Nos. 10-90, 14-58, 07-135, 05-337, 03-109; CC Docket Nos. 01-92, Report and Order, Further Notice of Proposed Rulemaking, and Order on Reconsideration, FCC 18-176 (*December 2018 Rate-of-Return Reform Order*). Additionally, in the *2016 Rate-of-Return Reform Order*, the Commission also adopted reforms to the universal service mechanisms used to determine support for rate-of-return carriers not electing model-based support. Among other such reforms, the Commission adopted an operating expense limitation to improve carriers' incentives to be prudent and efficient in their expenditures, a capital investment allowance to better target support to those areas with less broadband deployment, and broadband deployment obligations to promote "accountability from companies receiving support to ensure that public investment are used wisely to deliver intended results." In the *December 2018 Rate-of-Return Order*, the Commission further modified or, in the case of the capital investment allowance, eliminated these requirements. This information collection addresses the revised burdens associated with those reforms.
