Title: National Transit Database

(OMB Number: 2132-0008)

Background: 49 U.S.C. 5335(a) and (b) requires the Secretary of Transportation to maintain a reporting system, using a uniform system of accounts, to collect financial and operating information from the nation's public transportation systems. Congress created the NTD to be the repository of transit data for the nation to support public transportation service planning. FTA has established the NTD to meet these requirements, and has collected data for over 35 years. The NTD is comprised of four modules, Rural, Urban Annual, Monthly, and Safety Event Reporting. FTA continues to seek ways to reduce the burden of NTD reporting. FTA has added upload/download capabilities to the reporting system and greatly reduced the sampling required to certify Automatic Passenger Counters for use in reporting data to the NTD.

Respondents: State or local governmental entities that operates a public transportation service

Estimated Annual Number of Respondents: 2,334 respondents.

Estimated Annual Number of Responses: 17,766.

Estimated Total Annual Burden: 327,524 hours.

Frequency: Annual.
