*Abstract:* The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Miscellaneous Coating Manufacturing (40 CFR Part 63, Subpart HHHHH) apply to new and existing facilities that: 1) manufacture a miscellaneous coating (including inks, paints, or adhesives described by either Standard Industrial Classification (SIC) codes 285 or 289, or North American Industrial Classification System (NAICS) codes 3255 or 3259); 2) are either located at, or are part of, major sources of hazardous air pollutant (HAP) emissions; 3) process, use, or produce HAP; and 4) are not part of an affected source under another subpart of 40 CFR Part 63. New facilities include those that commenced either construction or reconstruction after April 4, 2002.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in

the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP. This information is being collected to assure compliance with 40 CFR Part 63, Subpart HHHHH.

*Form Numbers:* None.

*Respondents/affected entities:* These regulations apply to new and existing facilities that:

1) manufacture a miscellaneous coating (including inks, paints, or adhesives described by Standard Industrial Classification (SIC) codes 285 or 289, or North American Industrial Classification System (NAICS) codes 3255 or 3259); 2) are either located at, or are part of, major sources of hazardous air pollutant (HAP) emissions; 3) process, use, or produce HAP, and 4) are not part of an affected source under another subpart of 40 CFR Part 63.

*Respondent's obligation to respond:* Mandatory (40 CFR Part 63, Subpart HHHHH).

*Estimated number of respondents:* 43 (total).

*Frequency of response:* Semiannually.

*Total estimated burden:* 54,600 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$7,240,000 (per year), which includes \$907,000 in annualized capital/startup and/or operation & maintenance costs.

*Changes in the Estimates:* There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. A decrease in the number of respondent resulted in a decrease in the number of responses, hours and costs.
