Notice of Inventory Completion: The Florida Department of State/Division of Historical Resources, Tallahassee, FL; Correction

AGENCY: National Park Service, Interior.

ACTION: Notice; correction.

SUMMARY: The Florida Department of State, Division of Historical Resources has corrected an inventory of human remains and associated funerary objects, published in a Notice of Inventory Completion in the *Federal Register* on March 7, 2017. DATES: Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary object should submit a written request with information in

support of the request to the Florida Department of State, Division of Historical Resources at the address in this notice by [INSERT DATE 30 DAYS AFTER PUBLICATION IN THE *FEDERAL REGISTER*].

ADDRESSES: Kathryn Miyar, Florida Department of State, Division of Historical Resources, Mission San Luis State Archaeological Collections, 2100 West Tennessee Street, Tallahassee, FL 32304, telephone (850) 245-6301, email kathryn.miyar@dos.myflorida.com.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the correction of an inventory of human remains and associated funerary object under the control of the Florida Department of State, Division of Historical Resources, Tallahassee, FL. The human remains and associated funerary object were removed from the McClamory Key site (8LV288), Levy County, FL.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary object. The National Park Service is not responsible for the determinations in this notice.

This notice corrects the number of associated funerary objects and the listing of Indian Tribes that are recognized as aboriginal to the area from which the human remains and associated funerary objects were removed published in a Notice of Inventory Completion in the *Federal Register* (82 FR 12836-12839, March 7, 2017). Four hafted bifaces were found initially in association with human burials eroding from site 8LV288, however, three of these bifaces were recorded in the field and then reburied in the vicinity of the burials. When the archeological crew returned to the site to prepare for recovery operations of the burials, due to looting activity at the

site, these bifaces could not be relocated and are presumed to have been looted by the same individual or individuals who had disturbed the burials earlier that year. Therefore, there is only one biface in the Florida Department of State, Division of Historical Resources Archaeological Collections.

There are three Indian Tribes that are recognized as aboriginal to the area from which the human remains were removed, not one. Transfer of control of the items in this correction notice has not occurred.
