**Energy Conservation Program: Energy Conservation Standards for Unfired Hot Water Storage Tanks**

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy.

**ACTION:** Request for information; reopening of public comment period.

**SUMMARY:** On August 9, 2019, the U.S. Department of Energy (DOE) published a request for information (RFI) pertaining to the energy conservation standards for unfired hot water storage tanks. The RFI provided an opportunity for submitting written comments, data, and information by September 23, 2019. Prior to the end of the comment period for the RFI, DOE received a request from the Air-Conditioning, Heating and Refrigeration Institute (AHRI) on September 13, 2019 seeking additional time to analyze data, possibly conduct further testing, and prepare comments. In light of this request, DOE is reopening the comment period for an additional 30 days and announcing that decision in this document.

**DATES:** The comment period for the RFI, published on August 9, 2019 (84 FR 39220), which closed on September 23, 2019, is hereby reopened and extended. DOE will accept written comments, data, and information in response to the RFI submitted no later than **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]**.

#### **SUPPLEMENTARY INFORMATION:**

DOE published a Request for Information (RFI) pertaining to the energy conservation standards for unfired hot water storage tanks on August 9, 2019. 84 FR 39220. The RFI initiated a data collection process to consider whether to amend DOE's current uniform national standards for unfired hot water storage tanks, and whether amending the standards for unfired hot water storage tanks would result in significant additional conservation of energy and be technologically feasible and economically justified. DOE requested written comment, data, and information pertaining to these standards by September 23, 2019.

On September 13, 2019, AHRI, an interested party in the matter, requested a sixty-day extension of the public comment period for the RFI that DOE previously published in the *Federal Register* on August 9, 2019.<sup>1</sup> More specifically, AHRI requested additional time to analyze data, possibly conduct further testing, and prepare comments.

After carefully considering this request, DOE has determined that a reopening of the comment period to allow additional time for interested parties to submit comments is appropriate. Therefore, DOE is reopening the comment period and will accept comments received on and before **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]**, to provide interested parties additional time to prepare and
