Fresh Tomatoes from Mexico: Final Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce

SUMMARY: The Department of Commerce (Commerce) determines that fresh tomatoes from Mexico are being, or are likely to be, sold in the United States at less than fair value (LTFV). The final estimated weighted-average dumping margins are listed below in the “Final Determination” section of this notice.

SUPPLEMENTARY INFORMATION:

Background

On May 7, 2019, Commerce terminated the 2013 Suspension Agreement on fresh tomatoes from Mexico and continued the LTFV investigation of fresh tomatoes from Mexico. The original period of investigation was March 1, 1995 through February 29, 1996. Due to the unusual procedural posture of this proceeding, in which we terminated a suspension agreement

and continued an investigation that covers a period of investigation that dates back more than 23 years, Commerce determined to request information corresponding to the most recent four full quarters, i.e., April 1, 2018 through March 31, 2019.\(^3\) Based on the unusual procedural posture, we also found it appropriate to reconsider respondent selection.\(^4\) On May 24, 2019, we selected Bioparques de Occidente, S.A. de C.V. (Bioparques), Ceuta Produce, S.A. de C.V. (Ceuta), and Negocio Agricola San Enrique, S.A. de C.V. (San Enrique) for individual examination in this continued investigation.\(^5\) On July 23, 2019, Commerce issued the post-preliminary decision based on the information requested from, and provided by, Bioparques, Ceuta, and San Enrique.\(^6\) Commerce received case and rebuttal briefs on August 30, 2019, and September 4, 2019, respectively.\(^7\)

**Continuation of Investigation**

On September 19, 2019, Commerce and representatives of the signatory producers/exporters accounting for substantially all imports of fresh tomatoes from Mexico signed an agreement to suspend this investigation (the 2019 Agreement).\(^8\) On October 11, 2019, the Florida Tomato Exchange, a member of the U.S. petitioning industry, timely requested that Commerce continue this investigation.\(^9\) On October 15, 2019, Red Sun Farms also timely

requested that Commerce continue this investigation. Commerce has continued and completed this investigation in accordance with section 734(g) of the Tariff Act of 1930, as amended (the Act).

Scope of the Investigation

For a complete description of the scope of this investigation, see the “Scope of the Investigation” in Appendix I of this notice.

Scope Comments

In the post-preliminary decision, we addressed comments concerning the scope of this investigation. No party filed comments in its case brief concerning the scope of the investigation. Therefore, we have made no changes to the scope of the investigation in the final determination.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues and Decision Memorandum, which is hereby adopted by this notice. A list of the issues raised is attached to this notice as Appendix II. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov and it is available to all parties in the Central Records Unit, room B-8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be

The signed Issues and Decision Memorandum and the electronic version are identical in content.

Verification

As provided in section 782(i) of the Act, in August 2019, Commerce verified the sales and cost data reported by Bioparques, Ceuta, and San Enrique. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by the respondents.

Changes Since the Post-Preliminary Analysis

Based on the respondents’ supplemental responses and revised sales and cost databases, our findings at verification, and our analysis of the comments received, we made certain changes to the margin calculations in the post-preliminary decision. For a discussion of these changes, see the Issues and Decision Memorandum. We have also revised the all-others rate.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that Commerce estimate the weighted-average dumping margin for all other producers or exporters not subject to individual examination equal to the weighted average of the estimated weighted-average dumping margins of the individually examined respondents, excluding any rates that are zero, de minimis, or based entirely on facts available pursuant to section 776 of the Act. For purposes of this final determination, we are assigning 20.91 percent as the all-others rate, which is based on the weighted average of the estimated dumping margins calculated for the three individually examined respondents whose margins are above de minimis in the continued investigation.13

Final Determination

Commerce determines that the final weighted-average dumping margins are as follows:

**Disclosure**

We intend to disclose the calculations performed to interested parties within five days of the public announcement of this final determination consistent with 19 CFR 353.20(e) (1996).

**Suspension of Liquidation**

As noted above, on September 19, 2019, Commerce and representatives of the signatory producers/exporters accounting for substantially all imports of fresh tomatoes from Mexico signed the 2019 Agreement. Consistent with section 734(h)(3) of the Act, the suspension of liquidation ordered following the May 7, 2019 continuation of the investigation remained in effect. No interested party requested a review of the suspension of the investigation by the U.S. International Trade Commission (ITC) under section 734(h) of the Act. Therefore, in accordance with section 734(h)(3) of the Act, and because the 2019 Agreement remains in force, Commerce is instructing U.S. Customs and Border Protection to terminate the suspension of liquidation of all entries of fresh tomatoes from Mexico, entered, or withdrawn from warehouse,

---

14 In this investigation we have determined that Bioparques de Occidente, S.A. de C.V. and Agricola La Primavera, S.A. de C.V. are affiliated and should be treated as a single entity. See Issues and Decision Memorandum at 4-6.
15 In this investigation we have determined that Ceuta Produce, S.A. de C.V. and Rancho La Memoria, S. de R.L. de C.V. are affiliated and should be treated as a single entity. See Issues and Decision Memorandum at 4-6.
16 See 2019 Suspension Agreement, 84 FR at 49989 ("The suspension of liquidation ordered following the May 7, 2019 continuation of the investigation shall continue to be in effect, subject to section 734(h)(3) of the Act.").
for consumption on or after May 7, 2019, and to liquidate the entries without regard to antidumping duties (i.e., to refund any cash deposits and release any bonds for such entries).

**International Trade Commission Notification**

In accordance with section 735(d) of the Act, we will notify the ITC of the final affirmative determination of sales at LTFV. Because the final determination in this investigation is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of fresh tomatoes from Mexico no later than 45 days after our final determination. If the ITC determines that material injury or threat of material injury does not exist, the 2019 Agreement will have no force or effect, and the investigation will be terminated.\(^{17}\) If the ITC determines that material injury or threat of material injury does exist, the 2019 Agreement shall remain in force. Commerce will not issue an antidumping duty order so long as: (1) the 2019 Agreement remains in force; (2) the 2019 Agreement continues to meet the requirements of sections 734(c) and (d) of the Act; and (3) the parties to the 2019 Agreement carry out their obligations under the 2019 Agreement in accordance with its terms.\(^{18}\)

**Notification Regarding Administrative Protective Orders**

This notice serves as a reminder to parties subject to an Administrative Protective Order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3).\(^{19}\) Timely notification of the return or

Appendix I

Scope of the Investigation

The merchandise subject to the investigation is all fresh or chilled tomatoes (fresh tomatoes) which have Mexico as their origin, except for those tomatoes which are for processing. For purposes of this suspended investigation, processing is defined to include preserving by any commercial process, such as canning, dehydrating, drying, or the addition of chemical substances, or converting the tomato product into juices, sauces, or purees. Fresh tomatoes that are imported for cutting up, not further processing (e.g., tomatoes used in the preparation of fresh salsa or salad bars), are covered by the investigation.

Commercially grown tomatoes, both for the fresh market and for processing, are classified as Lycopersicon esculentum. Important commercial varieties of fresh tomatoes include common round, cherry, grape, plum, greenhouse, and pear tomatoes, all of which are covered by this investigation.

Tomatoes imported from Mexico covered by this investigation are classified under the following subheading of the Harmonized Tariff Schedule of the United States (HTSUS), according to the season of importation: 0702. Although the HTSUS numbers are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.
