Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

- (1) Type of Information Collection: Extension, Without Change, of a Currently Approved Collection.
- (2) Title of the Form/Collection: Petition for CNMI-Only Nonimmigrant Transition Worker.
- (3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: I-129CW; USCIS.
- (4) Affected public who will be asked or required to respond, as well as a brief abstract:
Primary: Business or other for-profit. USCIS uses the data collected on this form to determine

eligibility for the requested immigration benefits. An employer uses this form to petition USCIS for an alien to temporarily enter as a nonimmigrant into the CNMI to perform services or labor as a CNMI-Only Transitional Worker (CW-1). An employer also uses this form to request an extension of stay or change of status on behalf of the alien worker. The form serves the purpose of standardizing requests for these benefits, and ensuring that the basic information required to determine eligibility, is provided by the petitioners.

USCIS collects biometrics from aliens present in the CNMI at the time of requesting initial grant of CW-1 status. The information is used to verify the alien's identity, background information and ultimately adjudicate their request for CW-1 status.

The CW-1 classification is unique in that Form I-129CW is a petition for the CW-1 classification as well as a "grant of status." A "grant of status" allows beneficiaries lawfully present in the CNMI to change status directly from their CNMI classification or DHS-issued parole to the CW-1 classification. *See* 8 CFR 214.2(w)(1)(v). When a beneficiary is granted CW-1 status, the adjudicating officer is granting admission and status to the beneficiary without requiring the beneficiary to depart the CNMI, obtain a visa abroad, and seek admission with CBP. Because we are granting the CW-1 status to the beneficiary, we use biometrics to make a determination of admissibility prior to adjudicating the Form I-129CW petition. The checks are used to confirm identity and ensure that CW-1 status is not granted to anyone who is inadmissible. As the CW program progresses, the need to take biometrics in most cases has diminished, as the Form I-129CW is increasingly used for extension of status of persons who had already had their biometrics taken at the initial grant stage rather than for initial grants of status in the CNMI, but the authority will continue to be used in those initial grant cases that do arise.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection I-129CW is 3,749 and the estimated hour burden per response is 3 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The total estimated annual hour burden associated with this collection is 11,247 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this collection of information is \$459,253.

Dated: November 18, 2019.
