## II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "NRC Form 314, Certificate of Disposition of Materials." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on September 25, 2019 (84 FR 50480).

1. *The title of the information collection:* "NRC Form 314 Certificate of Disposition of Materials."

2. *OMB approval number:* 3150-0028.

3. *Type of submission:* Extension.

4. *The form number if applicable:* NRC Form 314.

5. *How often the collection is required or requested:* Form is required when NRC licensees do not wish to renew their license.

6. *Who will be required or asked to respond:* Respondents are firms, institutions, and individuals holding NRC license to possess and use radioactive materials who do not wish to renew those licenses.

7. *The estimated number of annual responses:* 136.

8. *The estimated number of annual respondents:* 136.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* Each form requires approximately 0.5 hours to prepare.  $136 \times 0.5 \text{ hour} =$  a total for all respondents of 68 hours per year.

10. *Abstract:* NRC Form 314 is submitted by a materials licensee who wishes to terminate its license. The form provides information needed by NRC to determine whether the licensee has radioactive materials on hand which must be transferred or otherwise disposed of prior to expiration or termination of the license.
