SUPPLEMENTARY INFORMATION:

I. Background

In the Federal Register of May 27, 2016 (81 FR 33742), we issued a final rule amending our labeling regulations for conventional foods and dietary supplements to provide updated nutrition information on the label to assist consumers in maintaining healthy dietary practices. The final rule updates the list of nutrients that are required or permitted to be declared; provides updated Daily Reference Values and Reference Daily Intake values that are based on updated dietary recommendations from consensus reports; amends requirements for foods represented or purported to be specifically for children under the age of 4 years and pregnant and lactating women and establishes nutrient reference values specifically for these population subgroups; and revises the format and appearance of the Nutrition Facts label. The final rule, which is codified at 21 CFR 101.9, 101.30, and 101.36, became effective July 26, 2016, and set a compliance date of July 26, 2018, for manufacturers with $10 million or more in annual food sales, and July 26, 2019, for manufacturers with less than $10 million in annual food sales. In the Federal Register of May 4, 2018 (83 FR 19619), we published a final rule to extend the compliance dates to
January 1, 2020, for manufacturers with $10 million or more in annual food sales, and January 1, 2021, for manufacturers with less than $10 million in annual food sales.

We examined the economic implications of the final rule as required by the Regulatory Flexibility Act (5 U.S.C. 601-612) and determined that the final rules on nutrition labeling, taken as a whole, will have a significant economic impact on a substantial number of small entities. In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Pub. L. 104-121, as amended by Pub. L. 110-28), we are making available the SECG to explain the actions that a small entity must take to comply with the rule.

We are issuing the SECG consistent with our good guidance practices regulation (21 CFR 10.115(c)(2)). The SECG represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

The guidance refers to previously approved collections of information found in FDA regulations. The collections of information in §§ 101.9, 101.30, and 101.36 have been approved under OMB control number 0910-0813.

III. Electronic Access

Persons with access to the internet may obtain the SECG at either http://www.fda.gov/FoodGuidances or https://www.regulations.gov. Use the FDA website listed in the previous sentence to find the most current version of the guidance.

Principal Associate Commissioner for Policy.
