ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R07-OAR-2019-0662; FRL-10004-63-Region 7]

Air Plan Approval; Missouri; Restriction of Emissions from Batch-type Charcoal Kilns

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a Missouri State Implementation Plan (SIP) revision received on March 7, 2019. The submission revises a Missouri regulation that establishes emission limits for batch-type charcoal kilns based on operational parameters to reduce emissions of particulate matter (PM$_{10}$), volatile organic compounds (VOCs) and carbon monoxide (CO). Specifically, the revisions to the rule add definitions specific to the rule, update references to test methods, remove unnecessary words, remove an obsolete requirement which applied only during the phase-in period of the rule that ended December 31, 2005, clarify a provision for an alternative operating temperature, and make other minor edits. These revisions are administrative in nature and do not impact the stringency of the SIP or air quality. Approval of these revisions will ensure consistency between State and federally-
approved rules.

DATES: This final rule is effective on [insert date 30 days after date of publication in the Federal Register].

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R07-OAR-2019-0662. All documents in the docket are listed on the https://www.regulations.gov web site. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available through https://www.regulations.gov or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional information.

I. Background
II. What is Being Addressed in this Document?
III. Have the Requirements for Approval of a SIP Revision Been Met?
IV. What Action is the EPA Taking?
V. Incorporation by Reference
VI. Statutory and Executive Order Reviews

I. Background

On December 6, 2019, the EPA proposed approval to revise the SIP revisions to a State rule that restricts emissions from batch-type charcoal kilns in the Federal Register. See 84 FR 66853. The EPA solicited comments on the proposed SIP revision and received no comments.

II. What is Being Addressed in this Document?

The EPA is approving a request to revise the Missouri SIP received on March 7, 2019. Missouri requested that the EPA approve revisions it made to a State rule found at title 10, division 10 of the code of state regulations-10 CSR 10-6.330 “Restriction of Emissions from Batch-Type Charcoal Kilns”. A detailed discussion of the submission, and the EPA’s review of it, was provided in the EPA’s December 6, 2019, notice of proposed rulemaking document published in the Federal Register. See 84 FR 66853. The EPA received no comments during the public comment period.
III. Have the Requirements for Approval of a SIP Revision Been Met?

The State submission met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice of the revisions from August 1, 2018, to October 4, 2018, and held a public hearing on September 27, 2018. The State received and addressed four comments. As explained in more detail in the technical support document (TSD) which is part of this docket, the SIP revision submission meets the substantive requirements of the Clean Air Act (CAA), including section 110 and implementing regulations.

IV. What Action is the EPA Taking?

The EPA is amending the Missouri SIP by approving the State’s request to revise 10 CSR 10-6.330, “Restriction of Emissions From Batch-Type Charcoal Kilns.” Approval of these revisions will ensure consistency between State and federally-approved rules. The EPA has determined that these changes will not adversely impact air quality.

V. Incorporation by Reference

In this document, the EPA is approving regulatory text in an EPA final rule that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, the EPA is
incorporating amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 7 Office (please contact the person identified in the “For Further Information Contact” section of this preamble for more information).

VI. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, if they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866.
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and
• Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

**List of Subjects in 40 CFR Part 52**

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Particulate matter, Volatile organic compounds.

James Gulliford,
Regional Administrator,
Region 7.
For the reasons stated in the preamble, the EPA is amending 40 CFR part 52 as set forth below:

PART 52--APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:

   **Authority:** 42 U.S.C. 7401 et seq.

   **Subpart-AA Missouri**

2. In §52.1320, the table in paragraph (c) is amended by revising the entry “10-6.330” to read as follows:

   **§52.1320 Identification of plan.**

   * * * * *

   (c)* * *

   **EPA-Approved Missouri Regulations**
