SUPPLEMENTARY INFORMATION:

In the Federal Register of December 19, 2019, FDA published a notice of availability with a 60-day comment period to request comments on the draft guidance for industry entitled “Bridging for Drug-Device and Biologic-Device Combination Products.”
The Agency has received requests for an extension of the comment period for the notice of availability. Each request conveyed concern that the current 60-day comment period does not allow sufficient time to develop a meaningful or thoughtful response to the notice of availability. FDA has considered the requests and is extending the comment period for the notice of availability for 60 days, until April 20, 2020. The Agency believes that a 60-day extension allows adequate time for interested persons to submit comments without compromising the timely publication of the final version of the guidance.

Lowell J. Schiller,

Principal Associate Commissioner for Policy.
