Title of the Collection: Federal Evaluation of Making Proud Choices! (MPC!)

Type of Collection: Revision

OMB No. 0990-0452

Abstract: The Office of Population Affairs (OPA), U.S. Department of Health and Human Services (HHS) is requesting an extension with revision of a currently approved information collection (OMB No: 0990–0452). The purpose of the revision is to complete the nine-month follow-up data collection for the Federal Evaluation of Making Proud Choices! (MPC). The evaluation is being conducted in 15 schools across four school districts nationwide and will provide information about program design, implementation, and impacts through a rigorous assessment of a highly popular teen pregnancy prevention curriculum—MPC. Clearance is requested for three years. This revision is necessary to complete the 9-month post-baseline follow up data collection after enrolling a fourth and final cohort into the study. The follow-up survey data will be used to determine program effectiveness by comparing sexual behavior outcomes, such as postponing sexual activity, and reducing or preventing sexual risk behaviors and STDs and intermediate outcomes, such as improving exposure, knowledge and attitudes between treatment (program) and control youth. The findings from these analyses of program impacts will be of interest to the general public, to policymakers, and to schools and other organizations interested in supporting a comprehensive approach to teen pregnancy prevention. The revision request also updates the burden by removing the second (15 months post baseline) survey from

the data collection.
