DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve the proposed information collection project “AHRQ Research Reporting System (ARRS).”

DATES: Comments on this notice must be received by 60 days after date of publication.

ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at doris.lefkowitz@AHRQ.hhs.gov

Copies of the proposed collection plans, data collection instruments, and specific details on the estimated burden can be obtained from the AHRQ Reports Clearance Officer.

FOR FURTHER INFORMATION CONTACT: Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427-1477, or by email at doris.lefkowitz@AHRQ.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

AHRQ Research Reporting System (ARRS)

AHRQ has developed a systematic method for its grantees and vendors to report project progress and important preliminary findings for grants and contracts funded by the Agency. This system, the AHRQ Research Reporting System (ARRS), previously known as the Grants Reporting System (GRS), was last approved by OMB on May 22nd, 2017. The system addressed the
shortfalls in the previous reporting process and established a consistent and comprehensive
grants reporting solution for AHRQ. The ARRS provides a centralized repository of grant and
contract research progress and additional information that can be used to support initiatives
within the Agency. This includes future research planning and support for administrative
activities such as performance monitoring, budgeting, knowledge transfer and strategic planning.

This Project has the following goals:

1) To promote the transfer of critical information more frequently and efficiently and
enhance the Agency’s ability to support research designed to improve the outcomes and quality
of health care, reduce its costs, and broaden access to effective services

2) To increase the efficiency of the Agency in responding to ad-hoc information requests

3) To support Executive Branch requirements for increased transparency and public
reporting

4) To establish a consistent approach throughout the Agency for information collection
regarding grant and contract progress and a systematic basis for oversight and for facilitating
potential collaborations among grantees

5) To decrease the inconvenience and burden on grantees and vendors of unanticipated ad-
hoc requests for information by the Agency in response to particular (one-time) internal and
external requests for information

This project is being conducted by AHRQ pursuant to AHRQ’s statutory authority to conduct
and support research on healthcare and on systems for the delivery of such care, including
activities with respect to the quality, effectiveness, efficiency, appropriateness and value of
healthcare services and with respect to quality measurement and improvement. 42 U.S.C. 299a(a)(1) and (2).

**Method of Collection**

To achieve the goals of this project the following data collections will be implemented:

AHRQ Research Reporting System (ARRS) – Grantees and vendors use the ARRS system to report project progress and important preliminary findings for grants and contracts funded by the Agency. Grantees and vendors submit progress reports on a monthly or quarterly basis which are reviewed by AHRQ personnel. All users access the ARRS system through a secure online interface which requires a user I.D. and password entered through the ARRS login screen. When status reports are due AHRQ notifies principal investigators and vendors via email.

The ARRS is an automated user-friendly resource that is utilized by AHRQ staff for preparing, distributing, and reviewing reporting requests to grantees and vendors for the purpose of information sharing. AHRQ personnel are able to systematically search the information collected and stored in the ARRS database. Personnel will also use the information to address internal and/or external requests for information regarding grant progress, preliminary findings, and other requests, such as Freedom of Information Act requests, and producing responses related to federally mandated programs and regulations.

**Estimated Annual Respondent Burden**

Exhibit 1 shows the estimated annualized burden hours for the respondents. It will take grantees and vendors an estimated 15 minutes to enter the necessary data into the ARRS System and reporting will occur four times annually. The total annualized burden hours are estimated to be 500 hours.
Exhibit 2 shows the estimated annualized cost burden for the respondents. The total estimated cost burden for respondents is $19,710.

**Request for Comments**

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501-3521, comments on AHRQ’s information collection are requested with regard to any of the following: (a) whether the
The proposed collection of information is necessary for the proper performance of AHRQ’s health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ’s estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency’s subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Virginia L. Mackay-Smith,

Associate Director.
