DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

6 CFR Part 5

[Docket No. DHS-2019-0046]

AGENCY: Department of Homeland Security.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Homeland Security is giving concurrent notice of a newly established system of records pursuant to the Privacy Act of 1974 for the “Department of Homeland Security/ALL-043 Enterprise Biometric Administrative Records (EBAR) System of Records” and this proposed rulemaking. In this proposed rulemaking, the Department proposes to exempt portions of the system of records from one or more provisions of the Privacy Act because of criminal, civil, and administrative enforcement requirements.

DATES: Comments must be received on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: You may submit comments, identified by docket number DHS-2019-043 by one of the following methods:

Fax: 202-343-4010.

**Instructions:** All submissions received must include the agency name and docket number for this notice. All comments received will be posted without change to http://www.regulations.gov, including any personal information provided.

**Docket:** For access to the docket to read background documents or comments received, go to http://www.regulations.gov.

**FOR FURTHER INFORMATION CONTACT:** For questions please contact:

**SUPPLEMENTARY INFORMATION:**

I. Background:

In accordance with the Privacy Act of 1974, 5 U.S.C. sec. 552a, the Department of Homeland Security (DHS) proposes to establish a new DHS system of records titled “DHS/ALL-043 Enterprise Biometric Administrative Records (EBAR) System of Records (SOR).”

This system of records allows the DHS to collect and maintain administrative and technical records associated with the enterprise biometric system known as the Automated Biometric Identification System (IDENT) and its successor information technology system, currently in development, called the Homeland Advanced Recognition Technology (HART).

The information is collected by, on behalf of, in support of, or in cooperation with
DHS and its components that may contain personally identifiable information collected by Federal, state, local, tribal, foreign, or international agencies, consistent with any applicable laws, rules, regulations, and information sharing and access agreements or arrangements.

Component system SORNs and the DHS/ALL-041 Enterprise Biometric Records (EBR) SORN cover the biometric data itself, but OBIM’s biometric repository generates technical and administrative information necessary to carry out functions that are not explicitly outlined in component source-system SORNs. For example, to more accurately identify individuals and ensure that all encounters are appropriately linked, IDENT and its successor information technology (IT) system, HART, will generate, store, and retrieve data by unique numbers or sequence of numbers and characters. These unique numbers or sequence of numbers and characters, also known as enumerators, link individuals with their encounters, biometrics, records, and other data elements. The EBAR SOR will be used for OBIM analysis and reporting functions in support of international data sharing efforts, redress functions, and the reporting and analysis functions of OBIM.

Consistent with DHS’s mission, information covered by DHS/ALL-043 EBAR may be shared with DHS Components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS may share information with appropriate Federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in the EBAR system of records notice.

Additionally, DHS is issuing this Notice of Proposed Rulemaking to exempt this
system of records from certain provisions of the Privacy Act. The system of records
notice is published elsewhere in this Federal Register. This newly established system will
be included in DHS’s inventory of record systems.

II. Privacy Act:

The Privacy Act embodies fair information practice principles in a statutory
framework governing the means by which Federal Government agencies collect,
maintain, use, and disseminate individuals’ records. The Privacy Act applies to
information that is maintained in a “system of records.” A “system of records” is a group
of any records under the control of an agency from which information is retrieved by the
name of the individual or by some identifying number, symbol, or other identifying
particular assigned to the individual. In the Privacy Act, an individual is defined to
encompass U.S. citizens and lawful permanent residents. Additionally, the Judicial
Redress Act (JRA) provides a statutory right to covered persons to make requests for
access and amendment to covered records, as defined by the JRA, along with judicial
review for denials of such requests. In addition, the JRA prohibits disclosures of covered
records, except as otherwise permitted by the Privacy Act.

The Privacy Act allows government agencies to exempt certain records from
certain provisions of the Privacy Act. If an agency claims an exemption, however, it must
issue a Notice of Proposed Rulemaking to make clear to the public the reasons why a
particular exemption is claimed.

DHS is claiming exemptions from certain requirements of the Privacy Act for
DHS/ALL-043 Enterprise Biometric Administrative Records System of Records. Some
information in this system of records relates to official DHS national security, law
enforcement, and intelligence activities. These exemptions are needed to protect information relating to DHS activities from disclosure to subjects or others related to these activities. Specifically, the exemptions are required to: preclude subjects of these activities from frustrating these processes; avoid disclosure of insider threat techniques; protect the identities and physical safety of confidential informants and law enforcement personnel; ensure DHS’s ability to obtain information from third parties and other sources; protect the privacy of third parties; and safeguard classified information.

Disclosure of information to the subject of the inquiry could also permit the subject to avoid detection or apprehension.

In appropriate circumstances, when compliance would not appear to interfere with or adversely affect the law enforcement purposes of this system and the overall law enforcement process, the applicable exemptions may be waived on a case by case basis.

A notice of system of records DHS/ALL-043 Enterprise Biometric Administrative Records System of Records is also published in this issue of the Federal Register.

List of Subjects in 6 CFR Part 5

Freedom of information; Privacy.

For the reasons stated in the preamble, DHS proposes to amend chapter I of title 6, Code of Federal Regulations, as follows:

PART 5--DISCLOSURE OF RECORDS AND INFORMATION

1. The authority citation for Part 5 continues to read as follows:

2. Add at the end of Appendix C to Part 5, the following new paragraph 84:

   Appendix C to Part 5 – DHS Systems of Records Exempt From the Privacy Act
84. The DHS/ALL-043 Enterprise Biometric Administrative Records (EBAR) System of Records consists of electronic and paper records and will be used by DHS and its components. The DHS/ALL-043 EBAR System of Records covers information held by DHS in connection with various missions and functions, including, but not limited to the enforcement of civil and criminal laws; investigations, inquiries, and proceedings there under; and national security and intelligence activities. The system of records covers information that is collected by, on behalf of, in support of, or in cooperation with DHS and its components and may contain personally identifiable information collected by other federal, state, local, tribal, foreign, or international government agencies.

The Secretary of Homeland Security, pursuant to 5 U.S.C. 552a(j)(2), has exempted this system from the following provisions of the Privacy Act: 5 U.S.C. 552a(c)(3), (c)(4); (d); (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(4)(I), (e)(5), (e)(8); (f); and (g). Additionally, the Secretary of Homeland Security, pursuant to 5 U.S.C. 552a(k)(1), (k)(2), and (k)(5), has exempted this system from the following provisions of the Privacy Act: 5 U.S.C. 552a(c)(3); (d); (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I); and (f).

Where a record received from another system has been exempted in that source system under 5 U.S.C. 552a(j)(2), 5 U.S.C. 552a(k)(1), (k)(2), and (k)(5), DHS will claim the same exemptions for those records that are claimed for the original primary systems of records from which they originated and claims any additional exemptions set forth here.

Exemptions from these particular subsections are justified on a case-by-case basis and determined at the time a request is made, for the following reasons:
(a) From subsection (c)(3) and (4) (Accounting for Disclosures) because release of the accounting of disclosures could alert the subject of an investigation of an actual or potential criminal, civil, or regulatory violation to the existence of that investigation and reveal investigative interest on the part of DHS and the recipient agency. Disclosure of the accounting would therefore present a serious impediment to law enforcement efforts and efforts to preserve national security. Disclosure of the accounting would also permit the subject of a record to impede the investigation, to tamper with witnesses or evidence, and to avoid detection or apprehension, which would undermine the entire investigative process. When an investigation has been completed, information on disclosures made may continue to be exempted if the fact that an investigation occurred remains sensitive after completion.

(b) From subsection (d) (Access and Amendment to Records) because providing access or permitting amendment to the records contained in this system of records could inform the subject of an investigation of an actual or potential criminal, civil, or regulatory violation to the existence of that investigation and reveal investigative interest on the part of DHS or another agency. Access to the records could permit the subject of a record to impede the investigation, to tamper with witnesses or evidence, and to avoid detection or apprehension. Amendment of the records could interfere with ongoing investigations and law enforcement activities and would impose an unreasonable administrative burden by requiring investigations to be continually reinvestigated. In addition, permitting access and
amendment to such information could disclose security-sensitive information that
could be detrimental to homeland security.

(c) From subsection (e)(1) (Relevancy and Necessity of Information) because in the
course of investigations into potential violations of federal law, the accuracy of
information obtained or introduced occasionally may be unclear, or the
information may not be strictly relevant or necessary to a specific investigation. In
the interests of effective law enforcement, it is appropriate to retain all
information that may aid in establishing patterns of unlawful activity.

(d) From subsection (e)(2) (Collection of Information from Individuals) because
requiring that information be collected from the subject of an investigation would
alert the subject to the nature or existence of the investigation, thereby interfering
with that investigation and related law enforcement activities.

(e) From subsection (e)(3) (Notice to Subjects) because providing such detailed
information could impede law enforcement by compromising the existence of a
confidential investigation or reveal the identity of witnesses or confidential
informants.

(f) From subsections (e)(4)(G), (e)(4)(H), and (e)(4)(I) (Agency Requirements) and
(f) (Agency Rules), because portions of this system are exempt from the
individual access provisions of subsection (d) for the reasons noted above, and
therefore DHS is not required to establish requirements, rules, or procedures with
respect to such access. Providing notice to individuals with respect to existence of
records pertaining to them in the system of records or otherwise setting up
procedures pursuant to which individuals may access and view records pertaining
to themselves in the system would undermine investigative efforts and reveal the identities of witnesses, and potential witnesses, and confidential informants.

(g) From subsection (e)(5) (Collection of Information) because with the collection of information for law enforcement purposes, it is impossible to determine in advance what information is accurate, relevant, timely, and complete. Compliance with subsection (e)(5) would preclude DHS agents from using their investigative training and exercise of good judgment to both conduct and report on investigations.

(h) From subsection (e)(8) (Notice on Individuals) because compliance would interfere with DHS’s ability to obtain, serve, and issue subpoenas, warrants, and other law enforcement mechanisms that may be filed under seal and could result in disclosure of investigative techniques, procedures, and evidence.

(i) From subsection (g) (Civil Remedies) to the extent that the system is exempt from other specific subsections of the Privacy Act.

Jonathan R. Cantor
Acting Chief Privacy Officer,
Department of Homeland Security.
