SUPPLEMENTARY INFORMATION:

I. Background

In the Federal Register of June 1, 2018, FDA published a notice with a 60-day comment period to request comments on the draft guidance for industry entitled “Development of Shared System REMS.” This draft guidance describes some of the possible benefits of a shared system REMS and provides general principles and recommendations to assist industry with the development of these programs. Section 610 of the Further Consolidated Appropriations Act, 2020 (Pub. L. 116-94, 133 Stat. 3524 (December 20, 2019)), amended section 505-1(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 351-1(i)), regarding the requirement that a drug that is the subject of an abbreviated new drug application (ANDA) and its reference listed
drug use a single, shared system for the elements to assure safe use unless FDA waives that 
requirement. We intend to revise the draft guidance accordingly. The Agency continues to 
recognize that shared system REMS may be in the interest of public health.

FDA is reopening the comment period until [INSERT DATE 60 DAYS AFTER DATE 
OF PUBLICATION IN THE FEDERAL REGISTER]. FDA is interested in receiving additional 
input regarding any further steps the Agency could take to facilitate successful formation of 
shared system REMS. In particular, FDA is seeking comment on the challenges and successes 
with: (1) negotiating governance agreements among parties involved in a shared system REMS 
and (2) developing effective shared system REMS programs. The Agency believes that an 
additional 60 days will allow adequate time for interested persons to submit comments without 
compromising the timely publication of the final version of the guidance.
