Guidance for Industry and Food and Drug Administration Staff; Combination Products: How to Write a Pre-Request For Designation

OMB Control Number 0845-Extension

The purpose of this guidance is to clarify the type of information the Office of Combination Products (OCP) recommends that a sponsor include in a Pre-RFD. This goal of this guidance is to assist sponsors in obtaining a preliminary assessment from the U.S. Food and Drug Administration (FDA or Agency) through the Pre-RFD process. The Pre-RFD process is available to provide informal, non-binding feedback regarding the regulatory identity or classification of a human medical product as a drug, device, biological product, or combination product. In addition, this informal process provides information about a non-combination or combination product's assignment to the appropriate Agency Center (Center for Drug Evaluation and Research (CDER), Center for Devices and Radiological Health (CDRH), or Center for Biologics Evaluation and Research (CBER)) for premarket review and regulation. Specifically, this guidance explains the Pre-RFD process at the Office of Combination Products (OCP) and helps a sponsor understand the type of information to provide in a Pre-RFD. This guidance
describes how to prepare a Pre-RFD submission. The guidance provides recommendations regarding the information that should be submitted in a Pre-RFD request and procedures that should be followed for meetings or conference calls between the Office of Combination Products, the Centers, and industry representatives or sponsors.

The proposed collections of information are necessary to allow the Agency to receive Pre-RFD requests in order to implement this voluntary submission program.

FDA estimates the burden of this collection of information as follows:

<table>

<tr>
<th>Activity</th>
<th>No. of Respondents</th>
<th>No. of Responses per Respondent</th>

1 There are no capital costs or operating and maintenance costs associated with this collection of information.

Our estimated burden for the information collection reflects an overall decrease of 689 hours. We attribute this adjustment to a decrease in response time for the number of submissions we received over the past 3 years.

Lowell J. Schiller,

Principal Associate Commissioner for Policy.
