Description: OHSEPR leads HHS’s and ACF’s disaster human services missions conducted under the National Response Framework’s Emergency Support Function 6 (ESF 6), Mass Care, Emergency Assistance, Temporary Housing, and Human Services. OHSEPR’s ESF 6 disaster operations include implementation of disaster human services case management missions to connect disaster survivors to resources and services that support their individual and family recovery from disaster.

The primary purpose of the information collection pertains to the implementation of OHSEPR’s delivery of case management services to individuals and households impacted
by a disaster. OHSEPR’s disaster case managers collect information during intake assessments that is utilized to identify a disaster survivor’s unmet needs and connect them with resources. OHSEPR also utilizes this information to target resources and improve its disaster human services operations.

The information collection will be used to support OHSEPR’s goal to quickly identify critical gaps, resources, needs, and services to support state, local, and non-profit capacity for disaster case management and to augment and build human service capacity where none exists. All information gathered will be used to (1) provide case management services to survivors and (2) inform the delivery of disaster case management services and programmatic strategies and improvements.

**Respondents:** Individuals impacted by a disaster.
