Agricultural Marketing Service

TITLE: Reporting and Recordkeeping Requirements for 7 CFR, Part 29

OMB CONTROL NUMBER: 0581-0056

SUMMARY OF COLLECTION: The Fair and Equitable Tobacco Reform Act of 2004 (7 USC 518) eliminated price supports and marketing quotas for all tobacco beginning with the 2005 crop year. Mandatory inspection and grading of domestic and imported tobacco were eliminated as well as the mandatory pesticide testing of imported tobacco and the tobacco Market News Program. The Tobacco Inspection Act (U.S.C. 511) requires that all tobacco sold at designated auction markets in the U.S. be inspected and graded. Provision is also made for interested parties to request inspection, pesticide testing and grading services on an “as needed” basis. The Act also provides for the establishment and maintenance of tobacco standards for U.S. grown types and the collection and dissemination of market news which are funded by appropriated money.

NEED AND USE OF THE INFORMATION: Information is collected through various forms and other documents for the inspection and certification process. Upon receiving request information from tobacco dealers and/or manufacturers, tobacco inspectors will pull samples and apply U.S. Standard Grades to tobacco samples providing the customer a Tobacco Inspection Certificate (TB-92). Also, samples can be submitted to a USDA laboratory for pesticide testing and a detailed analysis is provided to the customer.
