SUPPLEMENTARY INFORMATION:

On March 18, 2020, EPA published a supplemental notice of proposed rulemaking (SNPRM) titled “Strengthening Transparency in Regulatory Science” (85 FR 15396), which includes clarifications, modifications and additions to certain provisions in the Strengthening Transparency in Regulatory Science Proposed Rulemaking, published on April 30, 2018 (83 FR 18768). The SNPRM proposed that the scope of the rulemaking apply to influential scientific information as well as significant regulatory decisions. That notice proposed definitions and clarified that the proposed rulemaking would apply to data and models underlying both pivotal science and pivotal regulatory science. In the SNPRM, EPA also proposed a modified approach to the public availability provisions for data and models that would underly significant regulatory decisions and an alternate approach. Finally, EPA requested comment on whether to use its housekeeping authority independently or in conjunction with appropriate environmental statutory provisions as authority for the rulemaking.
This document extends the public comment period for the proposed rule to ensure that the public has sufficient time to review and comment on the proposal.

Mary Ross,
Director,
Office of Science Advisor, Policy and Engagement.
