DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2019-1069; Airspace Docket No. 19-ANM-12]

RIN 2120-AA66

Amendment of Class E Airspace; Bryce Canyon, UT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This action amends Class E airspace, designated as a surface area, at Bryce Canyon Airport, Bryce Canyon, UT, by adding an extension to the northeast of the airport. Also, this action amends Class E airspace by establishing an area, designated as an extension to a surface area, to the southwest of the airport. Additionally, this action amends Class E airspace, extending upward from 700 feet above the surface, by reducing the area to the east and southeast of the airport. Further, this action removes Class E airspace extending upward from 1,200 feet above the surface. This airspace is wholly contained within Denver en route airspace and duplication is not necessary. Lastly, this action makes an administrative update to the Class E surface airspace’s legal descriptions.

DATES: Effective 0901 UTC, July 16, 2020. The Director of the Federal Register approves this incorporation by reference action under Title 1 Code of Federal Regulations part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11D, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class E airspace at Bryce Canyon Airport, Bryce Canyon, UT, to ensure the safety and management of Instrument Flight Rules (IFR) operations at the airport.

History

The FAA published a notice of proposed rulemaking in the Federal Register (85 FR 5176; January 29, 2020) for Docket No. FAA-2019-1069 to amend Class E airspace at Bryce Canyon Airport, Bryce Canyon, UT. Interested parties were invited to participate in
this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E2, E4, and E5 airspace designations are published in paragraphs 6002, 6004 and 6005, respectively, of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 amends Class E airspace at Bryce Canyon Airport, Bryce Canyon, UT. This action amends Class E airspace, designated as a surface area, by adding a small extension to the northeast of the airport. The surface airspace extension is designed to contain IFR aircraft descending below 1,000 feet above the surface. The amended surface area is described as follows: That airspace extending upward from the surface within a 4.2-mile radius of the airport, and 1 mile each side of the 047° bearing from the airport, extending from the 4.2-mile radius to 5.4 miles northeast of the Bryce Canyon Airport.

Also, this action amends Class E airspace by establishing an area, designated as an extension to a surface area, to the southwest of the airport. This area is also designed to contain IFR aircraft descending below 1,000 feet above the surface and is described as
follows: That airspace extending upward from the surface within 1 mile each side of the 227° bearing from the airport, extending from the 4.2-mile radius to 7.8 miles southwest of the Bryce Canyon Airport.

Additionally, this action amends Class E airspace, extending upward from 700 feet above the surface, by reducing the area to the east and southeast of the airport. This area is designed to contain IFR arrivals descending below 1,500 feet above the surface and IFR departures until reaching 1,200 feet above the surface. This area is described as follows: That airspace extending upward from 700 feet above the surface within 8 miles north and 4.2 miles south of the 047° bearing from the airport, extending from the airport to 16 miles northeast of the airport, and with 8 miles north and 4.2 miles south of the 227° bearing from the airport, extending from the airport to 16 miles southwest of Bryce Canyon Airport.

Further, this action removes Class E airspace extending upward from 1,200 feet above the surface. This airspace is wholly contained within the Denver en route airspace and duplication is not necessary.

Lastly, this action makes an administrative update to the Class E surface airspace’s legal descriptions. The surface airspace should be in effect full time. The following two sentences do not accurately reflect the time of use and are removed. “This Class E airspace area is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.”

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses
The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71 - DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019, is amended as follows:

Paragraph 6002. Class E Airspace Areas Designated as a Surface Area.

*   *   *   *   *

ANM UT E2 Bryce Canyon, UT [Amended]
Bryce Canyon Airport, UT
(lat. 37°42'23''N., long. 112°08'45''W.)

That airspace extending upward from the surface within a 4.2-mile radius of the airport, and 1 mile each side of the 047° bearing from the airport, extending from the 4.2-mile radius to 5.4 miles northeast of Bryce Canyon Airport.

Paragraph 6004. Class E Airspace Areas Designated as an Extension to a Class D or Class E Surface Area.

*   *   *   *   *

ANM UT E4 Bryce Canyon, UT [New]
Bryce Canyon Airport, UT
(lat. 37°42'23''N., long. 112°08'45''W.)

That airspace extending upward from the surface within 1 mile each side of the 227° bearing from the airport, extending from the 4.2-mile radius to 7.8 miles southwest of Bryce Canyon Airport.

Paragraph 6005. Class E Airspace Areas Extending Upward from 700 Feet or More Above the Surface of the Earth.

*   *   *   *   *
ANM UT E5 Bryce Canyon, UT [Amended]  
Bryce Canyon Airport, UT  
(lat. 37°42'23"N., long. 112°08'45"W.)

That airspace extending upward from 700 feet above the surface within 8 miles north and 4.2 miles south of the 047° bearing from the airport, extending from the airport to 16 miles northeast of the airport, and within 8 miles north and 4.2 miles south of the 227° bearing from the airport, extending from the airport to 16 miles southwest of Bryce Canyon Airport.

Issued in Seattle, Washington, on April 7, 2020.
