Regulatory Capital Rule: Paycheck Protection Program Lending Facility and Paycheck Protection Program Loans

AGENCY: Office of the Comptroller of the Currency (OCC), Board of Governors of the Federal Reserve System (Board), and Federal Deposit Insurance Corporation (FDIC).

ACTION: Interim final rule; request for comment.

SUMMARY: To provide liquidity to small business lenders and the broader credit markets, to help stabilize the financial system, and to provide economic relief to small businesses nationwide, the Board of Governors of the Federal Reserve System (Board) authorized each of the Federal Reserve Banks to participate in the Paycheck Protection Program Lending Facility (PPPL Facility), pursuant to section 13(3) of the Federal Reserve Act. Under the PPPL Facility, each of the Federal Reserve Banks will extend non-recourse loans to eligible financial institutions to fund loans guaranteed by the Small Business Administration under the Paycheck Protection Program established by the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). To facilitate use of this Federal Reserve facility, the Office of the Comptroller of the Currency, the Board, and the Federal Deposit Insurance Corporation (together, the agencies)

are adopting this interim final rule to allow banking organizations to neutralize the regulatory capital effects of participating in the facility. This treatment is similar to the treatment extended previously by the agencies in connection with the Federal Reserve’s Money Market Mutual Fund Liquidity Facility. In addition, as mandated by section 1102 of the CARES Act, loans originated under the Small Business Administration’s Paycheck Protection Program will receive a zero percent risk weight under the agencies’ regulatory capital rule.

I. Background

The spread of the coronavirus disease 2019 (COVID-19) has slowed economic activity in many countries, including the United States. Financial conditions have tightened markedly, and the cost of credit has risen for most borrowers. Small businesses are acutely impacted by the COVID-19 pandemic. As millions of Americans have been ordered to stay home, severely reducing their ability to engage in normal commerce, revenue streams for many small businesses have collapsed. This has resulted in severe liquidity constraints at small businesses and has forced many small businesses to close temporarily or furlough employees. Continued access to financing will be crucial for small businesses to weather economic disruptions caused by COVID-19 and, ultimately, to help restore economic activity.

As part of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) and in recognition of the exigent circumstances faced by small businesses, Congress created the Paycheck Protection Program (PPP). PPP covered loans are fully guaranteed as to principal and accrued interest by the Small Business Administration (SBA), the amount of each being determined at the time the guarantee is exercised. As a general matter, SBA guarantees are backed by the full faith and credit of the U.S. Government. PPP covered loans also afford

borrowers forgiveness up to the principal amount of the PPP covered loan, if the proceeds of the PPP covered loan are used for certain expenses. The SBA reimburses PPP lenders for any amount of a PPP covered loan that is forgiven. PPP lenders are not held liable for any representations made by PPP borrowers in connection with a borrower's request for PPP covered loan forgiveness.

Under the PPP, eligible borrowers generally include businesses with fewer than 500 employees or that are otherwise considered by the SBA to be small, including individuals operating sole proprietorships or acting as independent contractors, certain franchisees, nonprofit corporations, veterans organizations, and Tribal businesses.¹ The loan amount under the PPP would be limited to the lesser of \$10 million and 250 percent of a borrower's average monthly payroll costs.²

In order to provide liquidity to small business lenders and the broader credit markets, and to help stabilize the financial system, on April 7, 2020, the Board, with approval of the Secretary of the Treasury, authorized each of the Federal Reserve Banks to extend credit under the Paycheck Protection Program Lending Facility (PPPL Facility), pursuant to section 13(3) of the Federal Reserve Act.³ Under the PPPL Facility, each of the Federal Reserve Banks will extend non-recourse loans to institutions that are eligible to make PPP covered loans, including depository institutions subject to the agencies' capital rules.⁴ Under the PPPL Facility, only PPP covered loans that are guaranteed by the SBA under the Paycheck Protection Program with

respect to both principal and interest and that are originated by an eligible institution may be pledged as collateral to the Federal Reserve Banks (eligible collateral).

To facilitate the use of this Federal Reserve facility, the agencies are adopting the interim final rule, which allows banking organizations to neutralize the regulatory capital effects of loans pledged to the PPPL Facility. This relief, which applies to both risk-based and leverage capital ratios, including the community bank leverage ratio, is consistent with the treatment that the agencies previously provided to banking organizations to facilitate use of the Federal Reserve's Money Market Mutual Fund Liquidity Facility.⁵

III. The Interim Final Rule

A. Regulatory capital treatment of PPPL Facility exposures

The agencies' capital rules require banking organizations to comply with risk-based and leverage capital requirements, which are expressed as a ratio of regulatory capital to assets and certain other exposures. Risk-based capital requirements are based on risk-weighted assets, whereas leverage capital requirements are based on a measure of average total consolidated assets or total leverage exposure. Participation in the PPPL Facility will affect the balance sheet of an eligible banking organization because, as a function of participating in the PPPL Facility, the banking organization must originate and hold PPP covered loans (that is, assets that are eligible collateral pledged to the Federal Reserve Banks) on its balance sheet.⁶ As a result, an

⁵ See Regulatory Capital Rule: Money Market Mutual Fund Liquidity Facility, 80 FR 16232 (March 23, 2020). This treatment also is consistent with relief provided in connection with the Asset-Backed Commercial Paper Money Market Mutual Fund Facility in 2008, 73 FR 55706 (Sept. 26, 2008).

⁶ Under the Small Business Administration's interim final rule, a lender may request that the Small Business Administration purchase the expected forgiveness amount of a PPP covered loan or pool of PPP covered loans at the end of week seven of the covered period. See Interim Final

eligible banking organization that participates in the PPPL Facility could potentially be subject to increased regulatory capital requirements.

The agencies believe that the regulatory capital requirements for PPP covered loans pledged by a banking organization to a Federal Reserve Bank as part of the PPPL Facility do not reflect the substantial protections from risk provided to the banking organization by the facility. Because of the non-recourse nature of the Federal Reserve's extension of credit to the banking organization, the banking organization is not exposed to credit or market risk from the pledged PPP covered loans. Therefore, the agencies believe that it would be appropriate to exclude the effects of these pledged PPP covered loans from the banking organization's regulatory capital.⁷

Specifically, the interim final rule would permit banking organizations to exclude exposures pledged as collateral to the PPPL Facility from a banking organization's total leverage exposure, average total consolidated assets, advanced approaches-total risk-weighted assets, and standardized total risk-weighted assets, as applicable.⁸

Question 1: The agencies invite comment on the advantages and disadvantages of neutralizing the effects of participating in the PPPL Facility on regulatory capital requirements. How does the approach in the interim final rule support the objectives of the facility? What other steps could be taken to support the objectives of the facility? What safety and soundness concerns should the agencies consider in connection with the approach in the interim final rule?

⁷ This includes covered PPP loans originated beginning on April 3, 2020, and pledged to the Federal Reserve Banks in connection with this facility.

⁸ This treatment would extend to the community bank leverage ratio.

B. Regulatory capital treatment of PPP covered loans

The agencies' regulatory capital rule requires a banking organization to apply a zero percent risk weight to the portion of exposures that is guaranteed by a U.S. Government agency for purposes of the banking organization's risk-based capital requirements.⁹ Section 1102 of the CARES Act requires banking organizations to apply a zero percent risk weight to PPP covered loans. Accordingly, and consistent with Section 1102 of the CARES Act, the agencies are amending sections 32 and 131 of the capital rule to clarify that PPP covered loans originated by a banking organization under the Paycheck Protection Program will receive a zero percent risk weight.

The agencies seek comment on all aspects of the interim final rule.

IV. Administrative Law Matters

A. Administrative Procedure Act

The agencies are issuing the interim final rule without prior notice and the opportunity for public comment and the delayed effective date ordinarily prescribed by the Administrative Procedure Act (APA).¹⁰ Pursuant to section 553(b)(B) of the APA, general notice and the opportunity for public comment are not required with respect to a rulemaking when an "agency for good cause finds (and incorporates the finding and a brief statement of reasons therefor in the rules issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest."¹¹

⁹ See 12 CFR 3.32(a)(1) (OCC); 12 CFR 217.32(a)(1) (Board); 12 CFR 324.32(a)(1) (FDIC).

¹⁰ 5 U.S.C. 553.

¹¹ 5 U.S.C. 553(b)(B).

The agencies believe that the public interest is best served by implementing the interim final rule immediately upon publication in the Federal Register. As discussed above, the spread of COVID-19 has slowed economic activity in many countries, including the United States. Financial conditions have tightened markedly, and the cost of credit has risen for most borrowers. Small businesses are acutely impacted by the COVID-19 pandemic. As millions of Americans have been ordered to stay home, severely reducing their ability to engage in normal commerce, revenue streams for many small businesses have collapsed. This has resulted in severe liquidity constraints at small businesses and has forced many small businesses to close temporarily or furlough employees. Continued access to financing will be crucial for small businesses to weather economic disruptions caused by COVID-19 and, ultimately, to help restore economic activity.

In order to provide liquidity to small business lenders and the broader credit markets, and to stabilize the financial system, the Board, with approval of the Secretary of the Treasury, authorized each of the Federal Reserve Banks to extend credit under the PPPL Facility, and the interim final rule will facilitate this Federal Reserve lending program. For these reasons, the agencies find that there is good cause consistent with the public interest to issue the rule without advance notice and comment.¹²

The APA also requires a 30-day delayed effective date, except for (1) substantive rules that grant or recognize an exemption or relieve a restriction; (2) interpretative rules and statements of policy; or (3) as otherwise provided by the agency for good cause.¹³ Because the

¹² 5 U.S.C. 553(b)(B).

¹³ 5 U.S.C. 553(d).

rules relieve a restriction, the interim final rule is exempt from the APA's delayed effective date requirement.¹⁴

While the agencies believe that there is good cause to issue the interim final rule without advance notice and comment and with an immediate effective date, the agencies are interested in the views of the public and requests comment on all aspects of the interim final rule.

B. Congressional Review Act

For purposes of Congressional Review Act (CRA), the Office of Management and Budget (OMB) makes a determination as to whether a final rule constitutes a “major” rule.¹⁵ If a rule is deemed a “major rule” by the OMB, the CRA generally provides that the rule may not take effect until at least 60 days following its publication.¹⁶

The CRA defines a “major rule” as any rule that the Administrator of the Office of Information and Regulatory Affairs of the OMB finds has resulted in or is likely to result in (1) an annual effect on the economy of \$100,000,000 or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies or geographic regions, or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets.¹⁷

For the same reasons set forth above, the agencies are adopting the interim final rule without the delayed effective date generally prescribed under the CRA. The delayed effective date required by the CRA does not apply to any rule for which an agency for good cause finds

¹⁴ 5 U.S.C. 553(d)(1).

¹⁵ 5 U.S.C. 801 et seq.

¹⁶ 5 U.S.C. 801(a)(3).

¹⁷ 5 U.S.C. 804(2).

(and incorporates the finding and a brief statement of reasons therefor in the rule issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest.¹⁸ In light of current market uncertainty, the agencies believe that delaying the effective date of the rule would be contrary to the public interest.

As required by the CRA, the agencies will submit the interim final rule and other appropriate reports to Congress and the Government Accountability Office for review.

C. Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (PRA) states that no agency may conduct or sponsor, nor is the respondent required to respond to, an information collection unless it displays a currently valid OMB control number.¹⁹ The interim final rule affects the agencies' current information collections for the Consolidated Reports of Condition and Income (Call Reports) (FFIEC 031, FFIEC 041, and FFIEC 051) and the Regulatory Capital Reporting for Institutions Subject to the Advanced Capital Adequacy Framework (FFIEC 101). The OMB control numbers for the Call Reports of the agencies are: OCC OMB No. 1557-0081; Board OMB No. 7100-0036; and FDIC OMB No. 3064-0052. The OMB control numbers for FFIEC 101 of the agencies are: OCC OMB No. 1557-0239; Board OMB No. 7100-0319; and FDIC OMB No. 3064-0159. The Board has reviewed the interim final rule pursuant to authority delegated by the OMB.

Although there is a substantive change to the actual calculation of total leverage exposure, average total consolidated assets, standardized total risk-weighted assets, and advanced approaches total risk-weighted assets, as applicable, for purposes of the Call Reports,

¹⁸ 5 U.S.C. 808.

¹⁹ 4 U.S.C. 3501-3521.

the change should be minimal and result in a zero net change in hourly burden under the agencies' information collections. Submissions will, however, be made by the agencies to OMB. The changes to the instructions of the Call Reports and FFIEC 101 will be addressed in a separate Federal Register notice.

The Board has temporarily revised the instructions to the Financial Statements for Holding Companies (FR Y-9 reports; OMB No. 7100-0128) to reflect the changes made in this interim final rule. On June 15, 1984, OMB delegated to the Board authority under the PRA to temporarily approve a revision to a collection of information without providing opportunity for public comment if the Board determines that a change in an existing collection must be instituted quickly and that public participation in the approval process would defeat the purpose of the collection or substantially interfere with the Board's ability to perform its statutory obligation.

The Board's delegated authority requires that the Board, after temporarily approving a collection, solicit public comment on a proposal to extend the temporary collection for a period not to exceed three years. Therefore, the Board is inviting comment to extend the FR Y-9 reports for three years, with revision. The Board invites public comment on the FR Y-9 reports, which are being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

- a. Whether the collection of information in the interim final rule is necessary for the proper performance of the Board's functions, including whether the information has practical utility;
- b. The accuracy of the Board's estimate of the burden of the information collection in the interim final rule, including the validity of the methodology and assumptions used;
- c. Ways to enhance the quality, utility, and clarity of the information to be collected;

- d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and
- e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

Comments must be submitted on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]. At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the interim final rule.

General description of report: The FR Y-9 reports continue to be the primary source of financial data on holding companies that examiners rely on in the intervals between on-site inspections.

Financial data from these reporting forms are used to detect emerging financial problems, to review performance and conduct pre-inspection analysis, to monitor and evaluate capital adequacy, to evaluate HC mergers and acquisitions, and to analyze a holding company's overall financial condition to ensure the safety and soundness of its operations. The FR Y-9C, FR Y-9LP, and FR Y-9SP serve as standardized financial statements for the consolidated HC. The Board requires HCs to provide standardized financial statements to fulfill the Board's statutory obligation to supervise these organizations. The FR Y-9ES is a financial statement for HCs that are Employee Stock Ownership Plans. The Board uses the FR Y-9CS (a free-form supplement) to collect additional information deemed to be critical and needed in an expedited manner. HCs file the FR Y-9C on a quarterly basis, the FR Y-9LP quarterly, the FR Y-9SP semiannually, the FR Y-9ES annually, and the FR Y-9CS on a schedule that is determined when this supplement is used.

Legal authorization and confidentiality: The Board has the authority to impose the reporting and recordkeeping requirements associated with the FR Y-9 family of reports on BHCs pursuant to section 5 of the Bank Holding Company Act of 1956 (BHC Act) (12 U.S.C. 1844); on SLHCs pursuant to section 10(b)(2) and (3) of the Home Owners' Loan Act (12 U.S.C. 1467a(b)(2) and (3)), as amended by sections 369(8) and 604(h)(2) of the Dodd-Frank Wall Street and Consumer Protection Act (Dodd-Frank Act); on U.S. IHCs pursuant to section 5 of the BHC Act (12 U.S.C. 1844), as well as pursuant to sections 102(a)(1) and 165 of the Dodd-Frank Act (12 U.S.C. 511(a)(1) and 5365); and on SHCs pursuant to section 618 of the Dodd-Frank Act (12 U.S.C. 1850a(c)(1)(A)). The obligation to submit the FR Y-9 reports, and the recordkeeping requirements set forth in the respective instructions to each report, are mandatory.

With respect to the FR Y-9C report, Schedule HI's memoranda data item 7(g) "FDIC deposit insurance assessments," Schedule HC-P's data item 7(a) "Representation and warranty reserves for 1-4 family residential mortgage loans sold to U.S. government agencies and government sponsored agencies," and Schedule HC-P's data item 7(b) "Representation and warranty reserves for 1-4 family residential mortgage loans sold to other parties" are considered confidential commercial and financial information. Such treatment is appropriate under exemption 4 of the Freedom of Information Act (FOIA) (5 U.S.C. 552(b)(4)) because these data items reflect commercial and financial information that is both customarily and actually treated as private by the submitter, and which the Board has previously assured submitters will be treated as confidential. It also appears that disclosing these data items may reveal confidential examination and supervisory information, and in such instances, this information would also be withheld pursuant to exemption 8 of the FOIA (5 U.S.C. 552(b)(8)), which protects information related to the supervision or examination of a regulated financial institution.

In addition, for both the FR Y-9C report and the FR Y-9SP report, Schedule HC's memorandum item 2.b., the name and email address of the external auditing firm's engagement partner, is considered confidential commercial information and protected by exemption 4 of the FOIA (5 U.S.C. 552(b)(4)) if the identity of the engagement partner is treated as private information by HCs. The Board has assured respondents that this information will be treated as confidential since the collection of this data item was proposed in 2004.

Aside from the data items described above, the remaining data items on the FR Y-9C report and the FR Y-9SP report are generally not accorded confidential treatment. The data items collected on FR Y-9LP, FR Y-9ES, and FR Y-9CS reports, are also generally not accorded confidential treatment. As provided in the Board's Rules Regarding Availability of Information

(12 CFR part 261), however, a respondent may request confidential treatment for any data items the respondent believes should be withheld pursuant to a FOIA exemption. The Board will review any such request to determine if confidential treatment is appropriate, and will inform the respondent if the request for confidential treatment has been denied.

To the extent the instructions to the FR Y-9C, FR Y-9LP, FR Y-9SP, and FR Y-9ES reports each respectively direct the financial institution to retain the workpapers and related materials used in preparation of each report, such material would only be obtained by the Board as part of the examination or supervision of the financial institution. Accordingly, such information is considered confidential pursuant to exemption 8 of the FOIA (5 U.S.C. 552(b)(8)). In addition, the workpapers and related materials may also be protected by exemption 4 of the FOIA, to the extent such financial information is treated as confidential by the respondent (5 U.S.C. 552(b)(4)).

Current actions: The Board has temporarily revised the instructions for the FR Y-9C to reflect the exclusion of PPP loans pledged to the PPPL Facility from the institution's total leverage exposure, average total consolidated assets, advanced approaches total risk-weighted assets, and standardized total risk-weighted assets, as applicable.²¹ Specifically, the Board has temporarily revised the FR Y-9C instructions to permit HCs to assign a zero percent risk weight to covered loans pledged to the PPPL Facility for purposes of determining the risk-weighted assets and leverage ratio. HCs would report these covered loans pledged to the PPPL Facility in Schedule HC-R, Part II, item 5.d., "Loans and leases held for investment: All other exposures" as

²¹ This treatment also would apply to those banking organizations that have elected to opt into the CBLR framework.

appropriate, in both Column A (Totals) and Column C (0% risk-weight category).²² The average of such assets purchased would be reported in Schedule HC-R, part I, item 29, “LESS: Other deductions from (additions to) assets for leverage ratio purposes,” and thus excluded from Schedule HC-R, item 30, “Total assets for the leverage ratio.”

The Board has determined that the revisions to the FR Y-9C must be instituted quickly and that public participation in the approval process would defeat the purpose of the collection of information, as delaying the revisions would result in the collection of inaccurate information and would interfere with the Board’s ability to perform its statutory duties.

The Board also proposes to extend the FR Y-9 reports for three years, with the revisions discussed above.

D. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA)²³ requires an agency to consider whether the rules it proposes will have a significant economic impact on a substantial number of small entities.²⁴ The RFA applies only to rules for which an agency publishes a general notice of proposed rulemaking pursuant to 5 U.S.C. 553(b). As discussed previously, consistent with section 553(b)(B) of the APA, the agencies have determined for good cause that general notice and opportunity for public comment is unnecessary, and therefore the agencies are not issuing a notice of proposed rulemaking. Accordingly, the agencies have concluded that the RFA’s requirements relating to initial and final regulatory flexibility analysis do not apply.

²² Reporting in Schedule HC-R, Part II, only applies to non CBLR holding companies.

²³ 5 U.S.C. 601 *et seq.*

²⁴ Under regulations issued by the Small Business Administration, a small entity includes a depository institution, bank holding company, or savings and loan holding company with total assets of \$600 million or less and trust companies with total assets of \$41.5 million or less. *See* 13 CFR 121.201.

Nevertheless, the agencies seek comment on whether, and the extent to which, the interim final rule would affect a significant number of small entities.

E. Riegle Community Development and Regulatory Improvement Act of 1994

Pursuant to section 302(a) of the Riegle Community Development and Regulatory Improvement Act (RCDRIA),²⁵ in determining the effective date and administrative compliance requirements for new regulations that impose additional reporting, disclosure, or other requirements on insured depository institutions (IDIs), each Federal banking agency must consider, consistent with the principle of safety and soundness and the public interest, any administrative burdens that such regulations would place on depository institutions, including small depository institutions, and customers of depository institutions, as well as the benefits of such regulations. In addition, section 302(b) of RCDRIA requires new regulations and amendments to regulations that impose additional reporting, disclosures, or other new requirements on IDIs generally to take effect on the first day of a calendar quarter that begins on or after the date on which the regulations are published in final form, with certain exceptions, including for good cause.²⁶ For the reasons described above, the agencies find good cause exists under section 302 of RCDRIA to publish the interim final rule with an immediate effective date.

As such, the interim final rule will be effective immediately. Nevertheless, the agencies seek comment on RCDRIA.

²⁵ 12 U.S.C. 4802(a).

²⁶ 12 U.S.C. 4802.

F. Use of Plain Language

Section 722 of the Gramm-Leach-Bliley Act²⁷ requires the Federal banking agencies to use plain language in all proposed and final rules published after January 1, 2000. The agencies have sought to present the interim final rule in a simple and straightforward manner. The agencies invite comments on whether there are additional steps it could take to make the rule easier to understand. For example:

- Have we organized the material to suit your needs? If not, how could this material be better organized?
- Are the requirements in the regulation clearly stated? If not, how could the regulation be more clearly stated?
- Does the regulation contain language or jargon that is not clear? If so, which language requires clarification?
- Would a different format (grouping and order of sections, use of headings, paragraphing) make the regulation easier to understand? If so, what changes to the format would make the regulation easier to understand? What else could we do to make the regulation easier to understand?

G. Unfunded Mandates Act

As a general matter, the Unfunded Mandates Act of 1995 (UMRA), 2 U.S.C. 1531 et seq., requires the preparation of a budgetary impact statement before promulgating a rule that includes a Federal mandate that may result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year. However, the UMRA does not apply to final rules for which a general notice of proposed rulemaking was not published. See 2 U.S.C. 1532(a). Therefore, because the OCC has found

²⁷ 12 U.S.C. 4809.

good cause to dispense with notice and comment for the interim final rule, the OCC has not prepared an economic analysis of the rule under the UMRA.
