

**6712-01**

**FEDERAL COMMUNICATIONS COMMISSION**

**[OMB 3060-0798 and OMB 3060-0800; FRS 16667]**

**Information Collections Being Submitted for Review and Approval to Office of Management and Budget**

**AGENCY: Federal Communications Commission.**

**ACTION: Notice and request for comments.**

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.” The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written comments and recommendations for the proposed information collection should be submitted on or before **[INSERT DATE 30 DAYS AFTER PUBLICATION IN THE FEDERAL REGISTER]**.

**ADDRESSES:** Comments should be sent to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review - Open for Public Comments" or by using the search function. Your comment must be submitted into [www.reginfo.gov](http://www.reginfo.gov) per the above instructions for it to be considered. In addition to submitting in [www.reginfo.gov](http://www.reginfo.gov) also send a copy of your comment on the proposed information collection to Cathy Williams, FCC, via email to [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov). Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collection, contact Cathy Williams at (202) 418-2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

**SUPPLEMENTARY INFORMATION:** As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

**OMB Control Number:** 3060-0798.

**Title:** FCC Application for Radio Service Authorization; Wireless Telecommunications Bureau; Public Safety and Homeland Security Bureau.

**Form Number:** FCC Form 601.

**Type of Review:** Revision of a currently approved collection.

**Respondents:** Individuals and households; Business or other for-profit entities; Not-for-profit institutions; and State, local or tribal governments.

**Number of Respondents and Responses:** 255,452 respondents and 255,452 responses.

**Estimated Time per Response:** 0.5-1.25 hours.

**Frequency of Response:** Recordkeeping requirement, third party disclosure requirement, on occasion reporting requirement and periodic reporting requirement.

**Obligation to Respond:** Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C.

151, 152, 154, 154(i), 155(c), 157, 201, 202, 208, 214, 301, 302a, 303, 307, 308, 309, 310, 311, 314, 316, 319, 324, 331, 332, 333, 336, 534, 535 and 554.

**Total Annual Burden:** 223,921 hours.

**Total Annual Cost:** \$71,906,000.

**Privacy Impact Assessment:** Yes.

**Nature and Extent of Confidentiality:** In general, there is no need for confidentiality with this collection of information.

**Needs and Uses:** FCC Form 601 is a consolidated, multi-part application form that is used for market-based and site-based licensing for wireless telecommunications services, including public safety licenses, which are filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains administrative information and a series of schedules used for filing technical and other information. This form is used to apply for a new license, to amend or withdraw a pending application, to modify or renew an existing license, cancel a license, request a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change), request a Special Temporary Authority or Developmental License. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on FCC Form 601 includes the FCC Registration Number (FRN), which serves as a “common link” for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission to use an FRN.

On August 3, 2017, the Commission released the WRS Reform Second Report and Order in which it consolidated the hodgepodge of service-specific renewal and permanent discontinuance rules into consolidated Part 1 rules, 1.949 and 1.953, respectively (See Amendment of Parts 1, 22, 24, 27, 74, 80, 90, 95, and 101 To Establish Uniform License Renewal, Discontinuance of Operation, and Geographic Partitioning and Spectrum Disaggregation Rules and Policies for Certain Wireless Radio Services, Second Report and Order and Further Notice of Proposed Rulemaking, FCC 17-105, (WRS Reform Second Report and Order)). Of relevance to the information collection at issue here, the Commission established a consistent standard for renewing wireless licenses and set forth safe harbors providing expedited renewal for licensees that meet their initial term construction requirement and remain operating at or above that level. In addition, the Commission adopted consistent service continuity rules, which provide for automatic termination of any license on which a licensee permanently discontinues service or operation.

The Commission now seeks approval for revisions to its currently approved collection of information under OMB Control Number **3060-0798** to permit (1) the collection of renewal-related information for Wireless Radio Service (WRS) licenses, and (2) the filing of requests to extend a permanent discontinuance period for good cause. Regarding renewal of WRS licenses, § 1.949(d) of the Commission's rules requires an applicant for renewal of certain WRS licenses to meet the Renewal Standard, i.e., the applicant must demonstrate that over the course of the license term, the licensee provided and continues to provide service to the public, or operated and continues to operate the license to meet the licensee(s)' private, internal communications needs. A renewal applicant can meet the Renewal Standard by certifying compliance with one of the safe harbors enumerated in § 1.949(e) of the Commission's rules, or, if the applicant cannot satisfy the requirements of one of the safe harbors, the

applicant must make a Renewal Showing consistent with § 1.949(f). In addition, a renewal applicant must make a Regulatory Compliance Certification certifying that it has substantially complied with all applicable FCC rules, policies, and the Communications Act of 1934, as amended. If an applicant is unable to make this substantial compliance certification, it will need to provide an explanation of the circumstances preventing such a certification and why renewal of the subject license should still be granted.

We do not anticipate that these revisions will have any impact on the burden to complete FCC Form 601. The renewal process remains virtually unchanged for site-based licensees, which will continue to have streamlined processes for renewal under the safe harbors adopted in the WRS Reform Second Report and Order. For licensees which had to make renewal showings under the Commissions' prior, service-specific renewal rules, including 700 MHz Commercial Services, 600 MHz Service, H-Block Service, AWS-3, AWS-4, and 218-219 MHz Service, the rules now provide for streamlined renewal processes under the safe harbor provisions in § 1.949(e), which minimize the burdens on such licensees. The Commission expects that most licensees will be able to avail themselves of the streamlined safe harbor process.

Although some licensees will be required to make a renewal showing, on balance, we believe there will be no increase in the overall annual burden to complete the form. Further, the Commission's experience with requests to extend the discontinuance period for licensees in the cellular service leads us to anticipate few, if any, such requests will be filed under our new rules. Specifically, we are unaware of any requests to extend a cellular discontinuance period. Thus, we believe there will be a negligible, if any, impact on the annual burden to complete the form.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 601 to revise FCC Form 601 accordingly.

In addition, on August 10, 2015, the Commission released a Report and Order in Amendment of Sections 90.20(d) and 90.265 of the Commission's Rules to Facilitate the Use of Vehicular Repeater Units, FCC 15-103, in which it decided to adopt certain changes to the rules governing six remote control and telemetry channels in the VHF band. The Commission decided to allow the licensing and operation of

vehicular repeater systems (VRS) and other mobile repeaters on these channels. In addition, the Commission revises and updated the technical rules for these channels to allow greater use of VRS systems while providing protection for incumbent telemetry users who rely on these frequencies for control of critical infrastructure systems. Of significance for this collection, the Commission also decided that the only way to accommodate both telemetry and VRS on these frequencies is through frequency coordination to both ensure geographic separation as well as minimizing the risk of commingling voice and data operations. In particular, the Commission adopted new section 90.175(b)(4), which prescribes the obligations of frequency coordinators and the ability of applicants to submit written concurrences from potentially affected incumbent licensees as part of the Form 601 filing. On December 11, 2015, the Commission adopted a Clarification Order in this docket, but that order made two changes to the requirements of section 90.175(b)(4).

Sections 90.35, 90.20, and 90.175(b)(4) require third party disclosures by applicants proposing to operate vehicular repeater units on designated frequencies. They are required to obtain written concurrence of a frequency coordinator. This information will be used by Commission personnel in evaluating the applicant's need for such frequencies and to minimize the interference potential to other stations operating on the proposed frequencies.

**OMB Control Number:** 3060-0800.

**Title:** FCC Application for Assignments of Authorization and Transfers of Control: Wireless Telecommunications Bureau and Public Safety and Homeland Security Bureau.

**Form Number:** FCC Form 603.

**Type of Review:** Revision of a currently approved collection.

**Respondents:** Business or other for-profit entities, Individuals or households, not-for-profit institutions, and State, Local or Tribal Governments.

**Number of Respondents and Responses:** 2,547 respondents; 2,547 responses.

**Estimated Time per Response:** 0.5 hours-1.75 hours.

**Frequency of Response:** Recordkeeping requirement, on occasion reporting requirement and periodic reporting requirement.

**Obligation to Respond:** Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154, 155, 158, 161, 301, 303(r), 308, 309, 310 and 332.

**Total Annual Burden:** 2,872 hours.

**Annual Cost Burden:** \$381,975.

**Privacy Act Impact Assessment:** Yes.

**Nature and Extent of Confidentiality:** In general, there is no need for confidentiality with this collection of information.

**Needs and Uses:** FCC Form 603 is a multi-purpose form that is used by radio services in Wireless Services within the Universal Licensing System (ULS). FCC 603 is composed of a main form that contains the administrative information and a series of schedules used for filing technical information. These schedules are required when applying for Auctioned Services, Partitioning and Disaggregation, Undefined Geographical Area Partitioning, and Notification of Consummation or Request for Extension of Time for Consummation. Applicants/licensees in the Public Mobile Services, Personal Communications Services, Private Land Mobile Radio Services, Broadband Radio Service, Educational Broadband Service, Maritime Services (excluding Ship), and Aviation Services (excluding Aircraft) use FCC Form 603 to apply for an assignment or transfer, to establish their parties' basic eligibility and qualifications, to classify the filing, and/or to determine the nature of the proposed service. This form is also used to notify the FCC of consummated assignments and transfers of wireless licenses to which the Commission has previously consented or for which notification but not prior consent is required. Respondents are encouraged to submit FCC 603 electronically.

The data collected on FCC 603 include the FCC Registration Number (FRN), which serves as a “common link” for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 required that those filing with the Commission to use an FRN, effective December 3, 2001.

Records may include information about individuals or households, e.g., personally identifiable information or PII, and the use(s) and disclosure of this information are governed by the requirements of a system of records notice or 'SORN', FCC/WTB-1, "Wireless Services Licensing Records." There are no additional impacts under the Privacy Act.

On August 3, 2017, the Commission released the WRS Reform Second Report and Order in which it consolidated the hodgepodge of service-specific geographic partitioning and spectrum disaggregation rules into a consolidated Part 1 rule, 1.950 (See Amendment of Parts 1, 22, 24, 27, 74, 80, 90, 95, and 101 To Establish Uniform License Renewal, Discontinuance of Operation, and Geographic Partitioning and Spectrum Disaggregation Rules and Policies for Certain Wireless Radio Services, Second Report and Order and Further Notice of Proposed Rulemaking, FCC 17-105, (WRS Reform Second Report and Order)). Of relevance to the information collection at issue here, the Commission required that when portions of geographic licenses are sold, both parties to the transaction have a clear construction obligation and penalty in the event of failure.

Specifically, § 1.950(c) requires parties seeking approval for geographic partitioning, spectrum disaggregation, or a combination of both must apply for a partial assignment of authorization by filing FCC Form 603 pursuant to § 1.948 of the Commission's rules. Each request for geographic partitioning must include an attachment defining the perimeter of the partitioned area by geographic coordinates to the nearest second of latitude and longitude, based upon the 1983 North American Datum (NAD83).

Alternatively, applicants may specify an FCC-recognized service area (e.g., Basic Trading Area, Economic Area, Major Trading Area, Metropolitan Service Area, or Rural Service Area), county, or county equivalent, in which case, applicants need only list the specific FCC-recognized service area, county, or county equivalent names comprising the partitioned area. Additionally, applicants have the option to submit geographic data associated with applications to partition and/or disaggregate their license using a shapefile, KML or Geojson file format.

In addition, § 1.950(d) requires applicants for geographic partitioning, spectrum disaggregation, or a combination of both, to include, if applicable, a certification with their partial assignment of authorization

application stating which party will meet any incumbent relocation requirements, except as otherwise stated in service-specific rules. Further, § 1.950(g) provides parties to geographic partitioning, spectrum disaggregation, or a combination of both, with two options to satisfy service-specific performance requirements (i.e., construction and operation requirements). Under the first option, each party may certify that it will individually satisfy any service-specific requirements and, upon failure, must individually face any service-specific performance penalties. Under the second option, both parties may agree to share responsibility for any service-specific requirements. Upon failure to meet their shared service-specific performance requirements, both parties will be subject to any service-specific penalties. The Commission seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060-0800 to permit the collection of the additional information in connection with partial assignments of authorizations for geographic partitioning, spectrum disaggregation, or a combination of both, pursuant to the rules and information collection requirements adopted by the Commission in the WRS Reform Second Report and Order. We do not anticipate that these revisions will impact the collection filing burden.

Federal Communications Commission.

Cecilia Sigmund,  
Federal Register Liaison Officer.
