SUPPLEMENTARY INFORMATION:

Title: In-Home Food Safety Behaviors and Consumer Education: Web-Based Survey.

OMB Number: 0583-0178.

Expiration Date of Approval: 10/31/2020.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, et seq.). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS’s Office of Public Affairs and Consumer Education (OPACE) develops consumer education programs concerning the safe handling, preparation, and storage of meat, poultry, and
processed egg products, so as to improve consumer food handling behaviors and minimize the incidence of foodborne illness.

OPACE shares its food safety messages through various outlets: The *Food Safe Families* campaign, a cooperative effort of USDA, Food and Drug Administration, and Centers for Disease Control and Prevention; Ask USDA; the Meat and Poultry Hotline, an interactive knowledge management system consumers can use to get answers from USDA employees via phone, chat, email and a frequently asked question database; the FSIS web site; social media; and public events. These messages are focused on the four core food safety behaviors: clean, separate, cook, and chill.

By testing planned and tailoring existing communication programs and materials, FSIS can help to ensure that it is effectively communicating with the public to improve consumer food safety practices. As part of ongoing activities by OPACE to develop and evaluate its public health education and communication activities, FSIS is requesting renewal of the approved information collection to conduct exploratory Web-based surveys of consumers. Findings from these surveys will provide information about how FSIS communication programs and materials affect consumer understanding of recommended safe food handling practices, as well as insight into how to effectively inform
consumers about recommended practices. The findings will be used to enhance communication programs and materials developed to improve consumers’ food safety behaviors and help prevent foodborne illness. Additionally, this research will provide useful information for tracking progress toward the goals outlined in the FSIS Fiscal Years 2017-2021 Strategic Plan.

FSIS has contracted with RTI International to conduct two iterations of a web-based survey. The first survey was conducted in Fiscal Year (FY) 2019 and the second survey will be conducted in FY 2021. Each iteration of the exploratory survey is designed to collect information from 2,400 randomly selected English-speaking adult members of a probability-based Web-enabled research panel maintained by a subcontractor.

The survey is designed to be representative of the U.S. adult population. This representation is achieved through address-based sampling (ABS), where every U.S. adult with an address (including those who do not have a landline phone number) has an equal probability of being selected for participation on the panel. A random sample of individuals will be selected from the panel for participation in the survey. A pilot will be conducted before the survey to test the survey instrument and procedures.
The first iteration of the survey collected information on consumer use of and response to the Meat and Poultry Hotline, consumer awareness of The Food Safe Families campaign, and consumer behaviors for preparing raw meat and poultry products. The second iteration of the survey will pilot a food safety literacy measure on consumers’ awareness and understanding of recommended food safety practices and gather nationally representative data on updates to FSIS’ recall templates used to communicate life-saving public health information to the public and the media.

*Estimate of Burden:* The total estimated burden for each iteration of the survey is 978.2 hours, for a total burden of 1,956.4 hours. To achieve 80 completed surveys during the pretest, 146 randomly selected panel members will be invited via email to take the survey. To achieve 2,400 completed surveys during the full-scale study, 4,400 randomly selected panel members will be invited via email to take the survey. Therefore, a total of 4,546 (146 + 4,400) potential panel members will be invited to participate in both the pretest and the full-scale study for each iteration of the survey. The invitation email for the pretest and the full-scale survey is expected to take 2 minutes (0.03333 hour). Each survey is expected to take 20
minutes (0.33333 hours) to complete.

Respondents: Consumers.

Estimated No. of Respondents: 9,092.

Estimated No. of Annual Responses per Respondent: 1.

Estimated Total Burden on Respondents: 1,956.4 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250-3700; (202) 720-5627.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or
other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this Federal Register publication on-line through the FSIS Web page located at: http://www.fsis.usda.gov/federal-register.

FSIS will also announce and provide a link to this Federal Register publication through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, Federal Register notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Constituent Update is available on the FSIS Web page. Through the Web page, FSIS can provide information to a much broader, more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized
access to selected food safety news and information. This service is available at:
http://www.fsis.usda.gov/subscribe. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.

**USDA Non-Discrimination Statement**
