Warrior Hydro, LLC;

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments,  
Motions to Intervene, and Competing Applications

On January 28, 2020, Warrior Hydro, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) William Bacon Oliver Lock and Dam on the Black Warrior River near the towns of Tuscaloosa and Northport in Tuscaloosa County, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) an 80-foot-long, 140-foot-wide intake channel; (2) four 10-foot-diameter, 60-foot-long steel siphon penstocks, near the south abutment of the Corps' dam; (3) a 80-foot-long, 40-foot-wide powerhouse containing four generating units with a total capacity of 9.2 megawatts; (4) a 100-foot-long, 140-foot-wide tailrace; and (5) a 0.9-mile-long, 34.5kV transmission line. The proposed project would have an estimated average annual generation of 59,000 megawatt-hours, and operate as directed by the Corps.
