These scenarios were initially developed at a January 2020 workshop and at the direction of the Council have been undergoing refinement. Based on input from Council advisory bodies, the CCCT will finalize the scenarios for use in phase two of the scenario planning process. The second phase will use a series of workshops to consider the policy and strategic planning implications of conditions described in the scenarios. The CCCT will also begin planning these workshops during this meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
