SUPPLEMENTARY INFORMATION:

The following correction is made to the proposed rule to modify the regulations regarding the SIMA system. (85 FR 17515, March 30, 2020). Commerce is removing the following statements on page 17518, column two, first paragraph: “Because the mill test certification is not currently required by CBP for entry purposes or required by Commerce for antidumping and countervailing duty purposes, Commerce cannot guarantee each importer would have a copy of the mill test certification. However, Commerce expects that the mill test certification would be included with the standard sales documentation for steel mill imports and therefore would be readily available to the importer.” Commerce is replacing this language with the following: “Specifically, the mill test certification is currently required by CBP for entry purposes, in accordance with 19 CFR 141.89 and 142.6, and Commerce expects that the mill test certification would be included with the standard sales documentation for steel mill imports and therefore would be readily available to the importer.”

Dated: June 10, 2020.
