SUPPLEMENTARY INFORMATION:

Public participation and request for comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. Consistent

with the requirements of Executive Order 13771, Reducing Regulation and Controlling Regulatory Costs, and Executive Order 13777, Enforcing the Regulatory Reform Agenda, the Coast Guard is also requesting comments on the extent to which this request for information could be modified to reduce the burden on respondents.

In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, [USCG-2020-0099], and must be received by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

Information Collection Request

Title: Alternative Compliance for International and Inland Navigation Rules – 33 CFR parts 81 through 89.

OMB Control Number: 1625-0019.

Summary: The information collected provides an opportunity for an owner, operator, builder, or agent of a unique vessel to present their reasons why the vessel cannot comply with existing International/Inland Navigation Rules and how alternative compliance can.

Need: Certain vessels cannot comply with the International Navigation Rules (see 33 U.S.C. 1601 through 1608; 28 U.S.T. 3459, and T.I.A.S. 8587) and Inland Navigation Rules (33 U.S.C. 2071). The Coast Guard thus provides an opportunity for alternative compliance. However, it is not possible to determine whether alternative compliance is appropriate, or what kind of alternative procedures might be necessary, without this collection.

Forms: Not applicable.

Respondents: Vessel owners, operators, builders and agents.

Frequency: One-time application.

Hour Burden Estimate: The estimated burden has decreased from 207 hours to 180 hours a year due to a decrease in the estimated annual number of responses.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: July 21, 2020.

Kathleen Claffie,
Chief, Office of Privacy Management,
U.S. Coast Guard.
