

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

RTID 0648-XA380

**Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota
Transfer from NC to VA**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2020 commercial summer flounder quota to the Commonwealth of Virginia. This quota adjustment is necessary to comply with the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised commercial quotas for North Carolina and Virginia.

DATES: Effective [*insert date of filing for public inspection with the Office of the Federal Register*], through December 31, 2020.

FOR FURTHER INFORMATION CONTACT: Laura Hansen, Fishery Management Specialist, (978) 281-9225.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.110. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The process to set the annual commercial quota and the

percent allocated to each state is described in § 648.102 and final 2020 allocations were published on October 9, 2019 (84 FR 54041).

The final rule implementing Amendment 5 to the Summer Flounder Fishery Management Plan, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: The transfer or combinations would preclude the overall annual quota from being fully harvested, the transfer addresses an unforeseen variation or contingency in the fishery, and the transfer is consistent with the objectives of the Fisheries Management Plan and the Magnuson-Stevens Act.

North Carolina is transferring 9,263 lb (4,202 kg) to Virginia. This transfer is occurring through mutual agreement of the states. This transfer was requested to repay landings made by a North Carolina permitted vessel under a safe harbor agreement. The

revised summer flounder quotas for fishing year 2020 are now: North Carolina, 3,125,501 lb (1,417,703 kg) and Virginia, 2,483,444 lb (1,126,471 kg).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 19, 2020.

Jennifer M. Wallace,
Acting Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.
