SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

• Crop production (NAICS code 111).

• Animal production (NAICS code 112).

• Food manufacturing (NAICS code 311).

• Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?
1. *Submitting CBI*. Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments*. When preparing and submitting your comments, see the commenting tips at https://www.epa.gov/dockets/commenting-epa-dockets.

3. *Environmental justice*. EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionally high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

**II. What Action is the Agency Taking?**

EPA is announcing receipt of a pesticide petition filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR part 174 and/or part 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the
request before responding to the petitioner. EPA is not proposing any particular action at this
time. EPA has determined that the pesticide petition described in this document contains data or
information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2); however, EPA has
not fully evaluated the sufficiency of the submitted data at this time or whether the data supports
granting of the pesticide petition. After considering the public comments, EPA intends to
evaluate whether and what action may be warranted. Additional data may be needed before EPA
can make a final determination on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition that is the subject of this
document, prepared by the petitioner, is included in a docket EPA has created for this
rulemaking. The docket for this petition is available at http://www.regulations.gov.

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is publishing
notice of the petition so that the public has an opportunity to comment on this request for the
establishment or modification of regulations for residues of pesticides in or on food
commodities. Further information on the petition may be obtained through the petition summary
referenced in this unit.

*New Tolerance Exemptions for Inerts (Except PIPS)*

Director’s Loop, Woodbridge, VA 22192, requests to establish an exemption from the
requirement of a tolerance for residues of potassium acetate (CAS Reg. No. 127-08-2), when
used as an inert ingredient (nutrient) in pesticide formulations under 40 CFR 180.920. The
petitioner believes no analytical method is needed because it is not required for an exemption
from the requirement of a tolerance. *Contact: RD*
