## B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

## II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a renewal of an existing collection of information to OMB for review entitled, "Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR And Part 20 Respirator Protection Exemption Request for Power Reactors Online Forms." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on May 27, 2020, 85 FR 31816.

1. *The title of the information collection:* Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR And Part 20 Respirator Protection

Exemption Request for Power Reactors Online Forms.

2. *OMB approval number:* 3150-0014.

3. *Type of submission:* Extension.

4. *The form number if applicable:* There is no form number for the online submission forms.

5. *How often the collection is required or requested:* On Occasion.

6. *Who will be required or asked to respond:* All holders of, and certain applicants for, nuclear power plant construction permits and operating licenses under the provisions of part 50 of title of the *Code of Federal Regulations* (10 CFR) , “Domestic Licensing of Production and Utilization Facilities” who seek exemptions from the medical evaluation frequency and fit-testing frequency requirements specified in 10 CFR 20.1703(c)(5)(iii) and 10 CFR 20.1703(c)(6) as allowed by 10 CFR 20.2301 “Applications for exemptions.”

7. *The estimated number of annual responses:* 60.

8. *The estimated number of annual respondents:* 60.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 120.

10. *Abstract:* The NRC requested an emergency review of this information collection in order to add this form to the previously approved information collection OMB Control Number 3150-0014 for a period of 6 months. The purpose of this information collection is to request an extension of the approval of the Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR and the Part 20 Respirator Protection Exemption Request for Power Reactors Online Forms. These forms simplify the filing the exemption requests because the existing system may be burdensome for licensees under current conditions. Under the existing collection under OMB Control No. 3150-0014, licensees are already able to seek exemptions from the requirements of

10 CFR part 20, "Standards for Protection Against Radiation." This information collection only addresses the incremental burden change to this existing clearance due to the form and not the total burden for the clearance.

10 CFR part 20 contains specific requirements for respiratory protection. Due to the impacts of the COVID-19 public health emergency (PHE), the NRC will also consider exemption requests for the medical evaluation frequency and fit-testing frequency requirements specified in 10 CFR 20.1703(c)(5)(iii) and 10 CFR 20.1703(c)(6); these exemptions would allow delay of these requirements during the COVID-19 PHE as allowed by 10 CFR 20.2301 "Applications for exemptions."

Dated: September 4, 2020.
