SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-89901; File No. SR-CboeBZX-2020-070]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing of a Proposed Rule Change to List and Trade Shares of the -1x Short VIX Futures ETF, a Series of VS Trust, Under Rule 14.11(f)(4) (“Trust Issued Receipts”)

September 17, 2020

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),\(^1\) and Rule 19b-4 thereunder,\(^2\) notice is hereby given that on September 4, 2020, Cboe BZX Exchange, Inc. (“Exchange” or “BZX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the “Exchange” or “BZX”) is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to list and trade shares of the -1x Short VIX Futures ETF, a series of VS Trust, under Rule 14.11(f)(4) (“Trust Issued Receipts”).

---

The text of the proposed rule change is also available on the Exchange’s website (http://markets.cboe.com/us/equities/regulation/rule_filings/bzx/), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

II. **Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. **Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

1. **Purpose**

This Amendment No. 3 to SR-CboeBZX-2020-003 amends and replaces in its entirety the proposal as amended by Amendment No. 2, which was submitted on April 13, 2020, and amended and replaced in its entirety the proposal as amended by Amendment No. 1, which was submitted on March 24, 2020. The original proposal, submitted on January 3, 2020, was amended and replaced in its entirety by Amendment No. 1. The Exchange submits this Amendment No. 3 in order to clarify certain points and add additional details to the proposal.

The Exchange proposes to list and trade Shares of the -1x Short VIX Futures ETF (the “Fund”) under Rule 14.11(f)(4), which governs the listing and trading of Trust
Issued Receipts\(^3\) on the Exchange.\(^4\)

The Fund seeks to provide daily investment results (before fees and expenses), as further described below, that correspond to the performance of a benchmark that seeks to offer short exposure to market volatility through publicly traded futures markets. The benchmark for the Fund is the Short VIX Futures Index (the “Index” or ticker symbol SHORTVOL).\(^5\) The Index measures the daily inverse (i.e., the opposite) performance of a theoretical portfolio of first- and second-month futures contracts on the Cboe Volatility Index (“VIX”).\(^6\)

The Fund will primarily invest in VIX futures contracts traded on the Cboe Futures Exchange, Inc. (“CFE”) (hereinafter referred to as “VIX Futures Contracts”) based on components of the Index to pursue its investment objective. In the event accountability rules, price limits, position limits, margin limits or other exposure limits

---

\(^3\) Rule 14.11(f)(4) applies to Trust Issued Receipts that invest in “Financial Instruments.” The term “Financial Instruments,” as defined in Rule 14.11(f)(4)(A)(iv), means any combination of investments, including cash; securities; options on securities and indices; futures contracts; options on futures contracts; forward contracts; equity caps, collars and floors; and swap agreements.

\(^5\) The Index is sponsored by Cboe Global Indexes (the “Index Sponsor”). The Index Sponsor is not a registered broker-dealer, but is affiliated with a broker-dealer. The Index Sponsor has implemented and will maintain a fire wall with respect to the broker-dealer affiliate regarding access to information concerning the composition and/or changes to the Index. In addition, the Index Sponsor has implemented and will maintain procedures that are designed to prevent the use and dissemination of material, non-public information regarding the Index.

\(^6\) The VIX is an index designed to measure the implied volatility of the S&P 500 over 30 days in the future. The VIX is calculated based on the prices of certain put and call options on the S&P 500. The VIX is reflective of the premium paid by investors for certain options linked to the level of the S&P 500.
are reached with respect to VIX Futures Contracts, Volatility Shares LLC (the “Sponsor”) may cause the Fund to obtain exposure to the Index through Over-the-Counter (OTC) swaps referencing the Index or particular VIX Futures Contracts comprising the Index (hereinafter referred to as “VIX Swap Agreements”). The Fund may also invest in VIX Swap Agreements if the market for a specific VIX Futures Contract experiences emergencies (e.g., natural disaster, terrorist attack or an act of God) or disruptions (e.g., a trading halt or a flash crash) or in situations where the Sponsor deems it impractical or inadvisable to buy or sell VIX Futures Contracts (such as during periods of market volatility or illiquidity).

The Sponsor, a Delaware limited liability company, serves as the Sponsor of VS Trust (the “Trust”). The Sponsor is a commodity pool operator. Tidal ETF Services LLC serves as the administrator (the “Administrator”) and U.S. Bank National Association serves as custodian of the Fund and its Shares. U.S. Bancorp Fund Services, LLC serves as the sub-administrator (the “Sub-Administrator”) and transfer agent. Wilmington Trust Company, a Delaware trust company, is the sole trustee of the Trust.

If the Sponsor to the Trust issuing the Trust Issued Receipts is affiliated with a broker-dealer, such Sponsor to the Trust shall erect and maintain a “fire wall” between the Sponsor and the broker-dealer with respect to access to information concerning the composition and/or changes to the Fund’s portfolio. The Sponsor is not a broker-dealer.

---

7 The Fund has filed a draft registration statement on Form S-1 under the Securities Act of 1933, dated December 6, 2019 (File No. 377-02945) (“Draft Registration Statement”). The description of the Fund and the Shares contained herein are based on the Draft Registration Statement. The Fund will not trade on the Exchange until such time as there is an effective registration statement for the Fund.
or affiliated with a broker-dealer. In the event that (a) the Sponsor becomes a broker-dealer or newly affiliated with a broker-dealer, or (b) any new sponsor is a broker-dealer or becomes affiliated with a broker-dealer, it will implement and maintain a fire wall with respect to its relevant personnel or such broker-dealer affiliate, as applicable, regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the portfolio.

The VIX Swap Agreements in which the Fund may invest may be cleared or non-cleared. The Fund will collateralize its obligations with Cash and Cash Equivalents consistent with the 1940 Act and interpretations thereunder.

The Fund will only enter into VIX Swap Agreements with counterparties that the Sponsor reasonably believes are capable of performing under the contract and will post as collateral as required by the counterparty. The Fund will seek, where possible, to use counterparties, as applicable, whose financial status is such that the risk of default is reduced; however, the risk of losses resulting from default is still possible. The Sponsor will evaluate the creditworthiness of counterparties on a regular basis. In addition to information provided by credit agencies, the Sponsor will review approved counterparties using various factors, which may include the counterparty’s reputation, the Sponsor’s past experience with the counterparty and the price/market actions of debt of the counterparty.

The Fund may use various techniques to minimize OTC counterparty credit risk

---

8 For purposes of this proposal, the term “Cash and Cash Equivalents” shall have the definition provided in Exchange Rule 14.11(i)(4)(C)(iii), applicable to Managed Fund Shares.
including entering into arrangements with its counterparties whereby both sides exchange collateral on a mark-to-market basis. Collateral posted by the Fund to a counterparty in connection with uncleared VIX Swap Agreements is generally held for the benefit of the counterparty in a segregated tri-party account at the custodian to protect the counterparty against non-payment by the Fund.

In addition to VIX Swap Agreements, if the Fund is unable to meet its investment objective through investments in VIX Futures Contracts, the Fund may also obtain exposure to the Index through listed VIX options contracts traded on the Cboe Exchange, Inc. (“Cboe”) (hereinafter referred to as “VIX Options Contracts”).

The Fund may also invest in Cash and Cash Equivalents that may serve as collateral in the above referenced VIX Futures Contracts, VIX Swap Agreements, and VIX Option Contracts (collectively referred to as the “VIX Derivative Products”).

If the Fund is successful in meeting its objective, its value (before fees and expenses) on a given day should gain approximately as much on a percentage basis as the level of the Index when it rises. Conversely, its value (before fees and expenses) should lose approximately as much on a percentage basis as the level of the Index when it declines. The Fund primarily acquires short exposure to the VIX through VIX Futures Contracts, such that the Fund has exposure intended to approximate the Index at the time of the net asset value (“NAV”) calculation of the Fund. However, as discussed above, in the event that the Fund is unable to meet its investment objective solely through the investment of VIX Futures Contracts, it may invest in VIX Swap Agreements or VIX Options Contracts. The Fund may also invest in Cash or Cash Equivalents that may serve as collateral to the Fund’s investments in VIX Derivative Products.
The Fund is not actively managed by traditional methods, which typically involve effecting changes in the composition of a portfolio on the basis of judgments relating to economic, financial and market considerations with a view toward obtaining positive results under all market conditions. Rather, the Fund seeks to remain fully invested at all times in VIX Derivative Products (and Cash and Cash Equivalents as collateral)\(^9\) that provide exposure to the Index consistent with its investment objective without regard to market conditions, trends or direction.

In seeking to achieve the Fund’s investment objective, the Sponsor uses a mathematical approach to investing. Using this approach, the Sponsor determines the type, quantity and mix of investment positions that the Sponsor believes in combination should produce daily returns consistent with the Fund’s objective. The Sponsor relies upon a pre-determined model to generate orders that result in repositioning the Fund’s investments in accordance with its investment objective.

**VIX Futures Contracts**

The Index is comprised of, and the value of the Fund will be based on, VIX Futures Contracts. VIX Futures Contracts are measures of the market’s expectation of the level of VIX at certain points in the future, and as such will behave differently than current, or spot, VIX, as illustrated below.

While the VIX represents a measure of the current expected volatility of the S&P 500 over the next 30 days, the prices of VIX Futures Contracts are based on the current expectation of what the expected 30-day volatility will be at a particular time in the future (on the expiration date). For example, a VIX Futures Contract purchased in March that

\(^9\) Supra note 6.
expires in May, in effect, is a forward contract on what the level of the VIX, as a measure of 30-day implied volatility of the S&P 500, will be on the May expiration date. The forward volatility reading of the VIX may not correlate directly to the current volatility reading of the VIX because the implied volatility of the S&P 500 at a future expiration date may be different from the current implied volatility of the S&P 500. As a result, the Index and the Fund should be expected to perform very differently from the inverse of the VIX over all periods of time. To illustrate, on December 4, 2019, the VIX closed at a price of 14.8 and the price of the February 2020 VIX Futures Contracts expiring on February 19, 2020 was 18.125. In this example, the price of the VIX represented the 30-day implied, or “spot,” volatility (the volatility expected for the period from December 5, 2019 to January 5, 2020) of the S&P 500 and the February VIX Futures Contracts represented forward implied volatility (the volatility expected for the period from February 19 to March 19, 2020) of the S&P 500.

**Short VIX Futures Index**

The Index is designed to express the daily inverse performance of a theoretical portfolio of first- and second-month VIX Futures Contracts (the “Index Components”), with the price of each VIX Futures Contract reflecting the market’s expectation of future volatility. The Index seeks to reflect the returns that are potentially available from holding an unleveraged short position in first- and second- month VIX Futures Contracts. While the Index does not correspond to the inverse of the VIX, as it seeks short exposure to VIX, the value of the Index, and by extension the Fund, will generally rise as the VIX falls and fall as the VIX rises. Further, as described above, because VIX Futures Contracts correlate to future volatility readings of VIX, while the VIX itself correlates to
current volatility, the Index and the Fund should be expected to perform significantly
different from the inverse of the VIX.

Unlike the Index, the VIX, which is not a benchmark for the Fund, is calculated
based on the prices of put and call options on the S&P 500, which are traded exclusively
on Cboe.

**Calculation of the Index**

The Index employs rules for selecting the Index Components and a formula to
calculate a level for the Index from the prices of these components. Specifically, the
Index Components represent the prices of the two near-term VIX Futures Contracts,
replicating a position that rolls the nearest month VIX Futures Contract to the next month
VIX Futures Contract on a daily basis in equal fractional amounts. This results in a
constant weighted average maturity of approximately one month. The roll period usually
begins on the Wednesday falling 30 calendar days before the S&P 500 option expiration
for the following month (the “Cboe VIX Monthly Futures Settlement Date”), and runs to
the Tuesday prior to the subsequent month’s Cboe VIX Monthly Futures Settlement
Date.

The level of the Index will be published at least every 15 seconds both in real time
from 9:30 a.m. to 4 p.m. ET and at the close of trading on each Business Day\(^{10}\) by
Bloomberg and Reuters.

**Mitigating Price Impacts to VIX Futures Contract Prices at Times of Fund Rebalancing**

\(^{10}\) A “Business Day” means any day other than a day when any of BZX, Cboe, CFE
or other exchange material to the valuation or operation of the Fund, or the
calculation of the VIX, options contracts underlying the VIX, VIX Futures
Contracts or the Index is closed for regular trading.
The Fund’s investment objective is a daily investment objective; that is, the Fund seeks to track the Index on a daily basis, not over longer periods. Accordingly, each day, the Fund will position its portfolio so that it can seek to track the Index. The direction and extent of the Index’s movements each day will dictate the direction and extent of the Fund’s portfolio rebalancing. For example, if the level of the Index falls on a given day, net assets of the Fund would fall. As a result, exposure to the Index, through futures positions held by the Fund, would need to be decreased. The opposite would be the case if the level of the Index rises on a given day.

The time and manner in which the Fund rebalances its portfolio is defined by the Index methodology but may vary from the Index methodology depending upon market conditions and other circumstances including the potential impact of the rebalance on the price of the VIX futures contracts. The Sponsor will seek to minimize the market impact of Fund rebalances on the price of VIX futures contracts by limiting the Fund’s participation, on any given day, in VIX futures contracts to no more than one-quarter of the contracts traded on Cboe Futures Exchange (the “CFE”) during any Rebalance Period (defined by the Index methodology as 3:45 p.m. – 4 p.m. ET). If the Fund’s portfolio rebalance exceeds one-quarter of the futures’ volume between 3:45 p.m. and 4 p.m. ET, the Sponsor will extend the rebalance period (the “Extended Rebalance Period) to include, for example, the period between 4 p.m. and 4:15 p.m. ET and the Trade At Settlement market (“TAS”).

The Sponsor expects that allowing the Fund to participate in an Extended Rebalance Period will minimize the impact on the price of VIX futures contracts, and particularly minimize any impact of large Fund rebalances during periods of market
Accordingly, by defining an explicit rebalancing methodology and limiting the Fund’s participation in the VIX futures contracts should reduce the impact of the Fund’s rebalancing on the price of VIX futures contracts.

The Sponsor believes that the Fund would enter an Extended Rebalance Period most often during periods of extraordinary volatility or illiquidity in VIX futures contracts. For example, in surveying the two most volatile months in recent history – February 2018 and March 2020 – and assuming a size equal to the largest previously achieved by an inverse VIX ETP ($1.9 billion – Symbol: XIV on February 1, 2018), the Fund would have exceeded one-quarter of the trading volume of VIX futures contracts during the Rebalance Period for seven days in February 2018 and for five days in March 2020. Having the Fund participate in an Extended Rebalance Period on those days would

\textsuperscript{11} Research on the impact of the portfolio rebalancing of VIX Exchange Traded Products (“VIX ETPs”) on VIX futures’ prices suggests that large rebalancing trades from inverse and leveraged VIX ETPs have a smaller than expected price impact on VIX futures. See Brøgger, S.B., \textit{The Market Impact of Uninformed Flows: Evidence from the VIX Futures Market} (2019). Available at: SSRN 3497537. This has been explained as resulting from the predictability of rebalancing flows from large VIX ETPs being priced into the VIX futures. See Todorov, K., \textit{Passive Funds Actively Affect Prices: Evidence from the Largest ETF Markets} (2019). Unpublished working paper, London School of Economics. Further research shows that the presence of ETF flow in an underlying market actually improves underlying liquidity. In that study they found bid-ask spreads to be narrower, order book deeper, and market resiliency larger on days when ETFs performed a rebalance, finding that this increased liquidity stemmed from a larger number of trading accounts that supplied liquidity to exploit the predictable order flow from rebalancing ETFs. Accordingly, one can assume that liquidity in VIX futures contracts during the Fund’s rebalancing period will be expected to grow, and this will reduce the fraction of the trading activity that the Fund’s rebalance will contribute to the VIX futures market. Bessembinder, H., Carrion, A., Tuttle, L. and Venkataraman, K., \textit{Liquidity, Resiliency and Market Quality Around Predictable Trades: Theory and Evidence.} Journal of Financial Economics, 121(1) (2016), pp.142-166.
have resulted in a maximum participation in VIX futures contracts over the Extended Rebalance Period of 14.1% in February 2018 and 12.6% in March 2020.

**Purchases and Redemptions of Creation Units**

The Fund will create and redeem Shares from time to time only in large blocks of a specified number of Shares or multiples thereof (“Creation Units”). A Creation Unit is a block of at least 10,000 Shares. Except when aggregated in Creation Units, the Shares are not redeemable securities.

On any Business Day, an authorized participant may place an order with the Sub-Administrator to create one or more Creation Units. The total cash payment required to create each Creation Unit is the NAV of at least 10,000 Shares of the Fund on the purchase order date plus the applicable transaction fee.

The procedures by which an authorized participant can redeem one or more Creation Units mirror the procedures for the purchase of Creation Units. On any Business Day, an authorized participant may place an order with the Sub-Administrator to redeem one or more Creation Units. The redemption proceeds from the Fund consist of the cash redemption amount. The cash redemption amount is equal to the NAV of the number of Creation Unit(s) of the Fund requested in the authorized participant’s redemption order as of the time of the calculation of a Fund’s NAV on the redemption order date, less transaction fees.

**Availability of Information Regarding the Shares**

The NAV for the Fund’s Shares will be calculated by the Sub-Administrator once

---

12 Authorized participants have a cut-off time of 2:00 p.m. ET to place creation and redemption orders.
each Business Day and will be disseminated daily to all market participants at the same
time.\textsuperscript{13} Pricing information for the Shares will be available on the Fund’s website at
\url{www.volatilityshares.com}, including: (1) the prior Business Day’s reported NAV, the
closing market price or the bid/ask price, daily trading volume, and a calculation of the
premium and discount of the closing market price or bid/ask price against the NAV; and
(2) data in chart format displaying the frequency distribution of discounts and premiums
of the daily closing price against the NAV, within appropriate ranges, for each of the four
previous calendar quarters.

The closing prices and settlement prices of the Index Components (i.e., the first-
and second-month VIX Futures Contracts) will also be readily available from the
websites of CFE (\url{http://www.cfe.cboe.com}), automated quotation systems, published or
other public sources, or on-line information services such as Bloomberg or Reuters.
Complete real-time data for component VIX Futures Contracts underlying the Index is
available by subscription from Reuters and Bloomberg. Specifically, the level of the
Index will be published at least every 15 seconds both in real time from 9:30 a.m. to 4
p.m. ET and at the close of trading on each Business Day by Bloomberg and Reuters.
The CFE also provides delayed futures information on current and past trading sessions
and market news free of charge on its website. The specific contract specifications of
Index Components (i.e., first-month and second-month VIX Futures Contracts)
underlying the Index are also available on Bloomberg and Reuters.

\textsuperscript{13} NAV means the total assets of the Fund including, but not limited to, all Cash and
Cash Equivalents or other debt securities less total liabilities of the Fund,
consistently applied under the accrual method of accounting. The Fund’s NAV is
calculated at 4 p.m. ET.
Quotation and last-sale information regarding the Shares will be disseminated through the facilities of the Consolidated Tape Association (“CTA”). Quotation and last-sale information regarding VIX Futures Contracts and VIX Options Contracts will be available from the exchanges on which such instruments are traded. Quotation and last-sale information relating to VIX Options Contracts will also be available via the Options Price Reporting Authority. Quotation and last-sale information for VIX Swap Agreements will be available from nationally recognized data services providers, such as Reuters and Bloomberg, through subscription agreements or from a broker-dealer who makes markets in such instruments. Quotation and last-sale information for VIX Swap Agreements will be valued on the basis of quotations or equivalent indication of value supplied by a third-party pricing service or broker-dealer who makes markets in such instruments. Pricing information regarding Cash Equivalents in which the Fund will invest is generally available through nationally recognized data services providers, such as Reuters and Bloomberg, through subscription agreements.

In addition, the Fund’s website at www.volatilityshares.com will display the end of day closing Index level, and NAV per Share for the Fund. The Fund will provide website disclosure of portfolio holdings daily and will include, as applicable, the notional value (in U.S. dollars) of VIX Derivative Products, and characteristics of such instruments, as well as Cash and Cash Equivalents held in the portfolio of the Fund. This website disclosure of the portfolio composition of the Fund will occur at the same time as the disclosure by the Fund of the portfolio composition to authorized participants so that all market participants are provided portfolio composition information at the same time. The same portfolio information will be provided on the public website as well as in
electronic files provided to authorized participants.

In addition, in order to provide updated information relating to the Fund for use by investors and market professionals, an updated Intraday Indicative Value ("IIV") will be calculated. The IIV is an indicator of the value of the Fund’s holdings, which include the VIX Derivative Products and Cash and Cash Equivalents less liabilities of the Fund at the time the IIV is disseminated. The IIV will be calculated and widely disseminated by one or more major market data vendors every 15 seconds throughout Regular Trading Hours.14

In addition, the IIV will be published on the Exchange’s website and will be available through on-line information services such as Bloomberg and Reuters.

The IIV disseminated during Regular Trading Hours should not be viewed as an actual real time update of the NAV, which is calculated only once a day. The IIV also should not be viewed as a precise value of the Shares.

Additional information regarding the Fund and the Shares, including investment strategies, risks, creation and redemption procedures, fees, portfolio holdings, disclosure policies, distributions and taxes will be included in the registration statement.

Initial and Continued Listing

The Shares of the Fund will conform to the initial and continued listing criteria under BZX Rule 14.11(f)(4). The Exchange represents that, for initial and continued listing, the Fund and the Trust must be in compliance with Rule 10A-3 under the Act. A minimum of 100,000 Shares of the Fund will be outstanding at the commencement of

---

14 As defined in Rule 1.5(w), the term “Regular Trading Hours” means the time between 9:30 a.m. and 4 p.m. ET.
trading on the Exchange. The Exchange will obtain a representation from the Sponsor of the Shares that the NAV per Share for the Fund will be calculated daily and will be made available to all market participants at the same time.

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. The Exchange will halt trading in the Shares under the conditions specified in BZX Rule 11.18. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the securities and/or the financial instruments composing the daily disclosed portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange’s existing rules governing the trading of equity securities. The Exchange will allow trading in the Shares from 8:00 a.m. until 8:00 p.m. ET and has the appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in BZX Rule 11.11(a), the minimum price variation for quoting and entry of orders in securities traded on the Exchange is $0.01, with the exception of securities that are priced less than $1.00, for which the minimum price variation for order entry is $0.0001.

Surveillance
Trading of the Shares through the Exchange will be subject to the Exchange’s surveillance procedures for derivative products, including Trust Issued Receipts. All of the VIX Futures Contracts and VIX Options Contracts held by the Fund will trade on markets that are a member of ISG or affiliated with a member of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.\textsuperscript{15} The Exchange, FINRA, on behalf of the Exchange, or both will communicate regarding trading in the Shares and the underlying listed instruments, including listed derivatives held by the Fund, with the ISG, other markets or entities who are members or affiliates of the ISG, or with which the Exchange has entered into a comprehensive surveillance sharing agreement. In addition, the Exchange, FINRA, on behalf of the Exchange, or both may obtain information regarding trading in the Shares and the underlying listed instruments, including listed derivatives, held by the Fund from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. The Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees. All statements and representations made in this filing regarding the Index composition, description of the portfolio or reference assets, limitations on portfolio holdings or reference assets, dissemination and availability of reference the Index, reference asset, and IIV, and the applicability of Exchange rules specified in this filing shall constitute continued listing requirements for the Fund. The issuer has represented to the Exchange that it will advise the Exchange of

\textsuperscript{15} For a list of the current members and affiliate members of ISG, see www.isgportal.com. The Exchange notes that not all components of the Fund’s holdings may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.
any failure by the Fund or the Shares to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will surveil for compliance with the continued listing requirements. If the Fund or the Shares are not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under Exchange Rule 14.12.

Information Circular

Prior to the commencement of trading, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Shares. Specifically, the Information Circular will discuss the following: (1) the procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (2) BZX Rule 3.7, which imposes suitability obligations on Exchange members with respect to recommending transactions in the Shares to customers; (3) Interpretation and Policy .01 of BZX Rule 3.7 which imposes a duty of due diligence on its Members to learn the essential facts relating to every customer prior to trading the Shares; (4) how information regarding the IIV and the Fund’s holdings is disseminated; (5) the risks involved in trading the Shares during the Pre-Opening and After Hours Trading Sessions when an updated IIV will not be

---

16 Specifically, in part, Interpretation and Policy .01 of Rule 3.7 states “[n]o Member shall recommend to a customer a transaction in any such product unless the Member has a reasonable basis for believing at the time of making the recommendation that the customer has such knowledge and experience in financial matters that he may reasonably be expected to be capable of evaluating the risks of the recommended transaction and is financially able to bear the risks of the recommended position.

17 The Pre-Opening Session is from 8:00 a.m. to 9:30 a.m. ET.

18 The After Hours Trading Session is from 4 p.m. to 8:00 p.m. ET.
calculated or publicly disseminated; (6) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (7) trading information.

Further, the Exchange states that FINRA has implemented increased sales practice and customer margin requirements for FINRA members applicable to inverse, leveraged and inversed leveraged securities (which include the Shares) and options on such securities, as described in FINRA Regulatory Notices 09-31 (June 2009), 09-53 (August 2009), and 09-65 (November 2009) (collectively, “FINRA Regulatory Notices”). Members that carry customer accounts will be required to follow the FINRA guidance set forth in these notices. As noted above, the Fund will seek daily investment results, before fees and expenses, that correspond to the Index, which measures daily inverse performance of a theoretical portfolio of first- and second-month futures contracts on the VIX. The Fund does not seek to achieve its primary investment objective over a period of time greater than a single day. The return of the Fund for a period longer than a single day is the result of its return for each day compounded over the period and usually will differ in amount and possibly even direction from either the inverse of the VIX or the inverse of a portfolio of short-term VIX Futures Contracts for the same period. These differences can be significant.

In addition, the Information Circular will advise members, prior to the commencement of trading, of the prospectus delivery requirements applicable to the Fund. Members purchasing Shares from the Fund for resale to investors will deliver a prospectus to such investors. The Information Circular will also discuss any exemptive, no-action and interpretive relief granted by the Commission from any rules under the Act.
In addition, the Information Circular will reference that the Fund is subject to various fees and expenses described in the Fund’s registration statement. The Information Circular will also disclose the trading hours of the Shares of the Fund and the applicable NAV calculation time for the Shares. The Information Circular will disclose that information about the Shares of the Fund will be publicly available on the Fund’s website.

2. **Statutory Basis**

The Exchange believes that the proposal is consistent with Section 6(b) of the Act in general and Section 6(b)(5) of the Act in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in Exchange Rule 14.11(f). The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. If the Sponsor to the Trust issuing the Trust Issued Receipts is affiliated with a broker-dealer,

---

such Sponsor to the Trust shall erect and maintain a “fire wall” between the Sponsor and
the broker-dealer with respect to access to information concerning the composition and/or
changes to the Fund’s portfolio. The Sponsor is not a broker-dealer or affiliated with a
broker-dealer. In the event that (a) the Sponsor becomes a broker-dealer or newly
affiliated with a broker-dealer, or (b) any new sponsor is a broker-dealer or becomes
affiliated with a broker-dealer, it will implement and maintain a fire wall with respect to
its relevant personnel or such broker-dealer affiliate, as applicable, regarding access to
information concerning the composition and/or changes to the portfolio, and will be
subject to procedures designed to prevent the use and dissemination of material non-
public information regarding the portfolio. The Exchange, FINRA, on behalf of the
Exchange, or both may obtain information regarding trading in the Shares and the
underlying VIX Futures Contracts and VIX Options Contracts via the ISG from other
exchanges who are members or affiliates of the ISG or with which the Exchange has
entered into a comprehensive surveillance sharing agreement. In addition, the Exchange
also has a general policy prohibiting the distribution of material, non-public information
by its employees.

The proposed rule change is designed to promote just and equitable principles of
trade and to protect investors and the public interest in that the Exchange will obtain a
representation from the issuer of the Shares that the NAV will be calculated daily and
that the NAV and the Fund’s holdings will be made available to all market participants at
the same time. In addition, a large amount of information is publicly available regarding
the Fund and the Shares, thereby promoting market transparency. Moreover, the IIV will
be disseminated by one or more major market data vendors at least every 15 seconds
during Regular Trading Hours. On each Business Day, before commencement of trading in Shares during Regular Trading Hours, the Fund will disclose on its website the holdings that will form the basis for the Fund’s calculation of NAV at the end of the Business Day. Pricing information will be available on the Fund’s website including: (1) the prior Business Day’s reported NAV, the closing market price or the bid/ask price, daily trading volume, and a calculation of the premium and discount of the closing market price or bid/ask price against the NAV; and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily closing price against the NAV, within appropriate ranges, for each of the four previous calendar quarters.

Additionally, information regarding market price and trading of the Shares will be continually available on a real-time basis throughout the day on brokers’ computer screens and other electronic services, and quotation and last sale information for the Shares will be available on the facilities of the CTA. The website for the Fund will include a form of the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Trading in Shares of the Fund will be halted under the conditions specified in Exchange Rule 11.18. Trading may also be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. Finally, trading in the Shares will be subject to 14.11(f)(4)(C)(ii), which sets forth circumstances under which Shares of the Fund may be halted. In addition, as noted above, investors will have ready access to information regarding the Fund’s holdings, the IIV, and quotation and last sale information for the Shares.

Quotation and last-sale information regarding the Shares will be disseminated
through the facilities of the CTA. Quotation and last-sale information regarding VIX Futures Contracts and VIX Options Contracts will be available from the exchanges on which such instruments are traded. Quotation and last-sale information relating to VIX Options Contracts will also be available via the Options Price Reporting Authority. Quotation and last-sale information relating to VIX Futures Contracts and VIX Options Contracts will be available from the exchanges on which such instruments are traded.

Quotation and last-sale information relating to VIX Options Contracts will also be available via the Options Price Reporting Authority. Quotation and last-sale information for VIX Swap Agreements will be available from nationally recognized data services providers, such as Reuters and Bloomberg, through subscription agreements or from a broker-dealer who makes markets in such instruments. Quotation and last-sale information for VIX Swap Agreements will be valued on the basis of quotations or equivalent indication of value supplied by a third-party pricing service or broker-dealer who makes markets in such instruments. Pricing information regarding Cash Equivalents in which the Fund will invest is generally available through nationally recognized data services providers, such as Reuters and Bloomberg, through subscription agreements.

Fund’s investment objective is a daily investment objective; that is, the Fund seeks to track the Index on a daily basis, not over longer periods. Accordingly, each day, the Fund will position its portfolio so that it can seek to track the Index. The direction and extent of the Index’s movements each day will dictate the direction and extent of the Fund’s portfolio rebalancing. For example, if the level of the Index falls on a given day, net assets of the Fund would fall. As a result, exposure to the Index, through futures positions held by the Fund, would need to be decreased. The opposite would be the case if the level of the Index rises on a given day.

The time and manner in which the Fund rebalances its portfolio is defined by the Index methodology but may vary from the Index methodology depending upon market
conditions and other circumstances including the potential impact of the rebalance on the price of the VIX futures contracts. The Sponsor will seek to minimize the market impact of Fund rebalances on the price of VIX futures contracts by limiting the Fund’s participation, on any given day, in VIX futures contracts to no more than one-quarter of the contracts traded on CFE during any Rebalance Period (defined by the Index methodology as 3:45 p.m. – 4 p.m. ET). If the Fund’s portfolio rebalance exceeds one-quarter of the futures’ volume between 3:45 p.m. and 4 p.m. ET, the Sponsor will extend the rebalance period to include, for example, the period between 4 p.m. and 4:15 p.m. ET and TAS.

The Sponsor expects that allowing the Fund to participate in an Extended Rebalance Period will minimize the impact on the price of VIX futures contracts, and particularly minimize any impact of large Fund rebalances during periods of market illiquidity. Accordingly, by defining an explicit rebalancing methodology and limiting the Fund’s participation in the VIX futures contracts should reduce the impact of the Fund’s rebalancing on the price of VIX futures contracts.

The Sponsor believes that the Fund would enter an Extended Rebalance Period most often during periods of extraordinary volatility or illiquidity in VIX futures contracts. For example, in surveying the two most volatile months in recent history – February 2018 and March 2020 – and assuming a size equal to the largest previously achieved by an inverse VIX ETP ($1.9 billion – Symbol: XIV on February 1, 2018), the Fund would have exceeded one-quarter of the trading volume of VIX futures contracts during the Rebalance Period for seven days in February 2018 and for five days in March 2020. Having the Fund participate in an Extended Rebalance Period on those days would
have resulted in a maximum participation in VIX futures contracts over the Extended
Rebalance Period of 14.1% in February 2018 and 12.6% in March 2020.

The proposed rule change is designed to perfect the mechanism of a free and open
market and, in general, to protect investors and the public interest in that it will facilitate
the listing and trading of an additional type of exchange-traded product that will enhance
competition among market participants, to the benefit of investors and the marketplace.

As noted above, the Exchange has in place surveillance procedures relating to
trading in the Shares and may obtain information via ISG from other exchanges that are
members of ISG or with which the Exchange has entered into a comprehensive
surveillance sharing agreement. In addition, as noted above, investors will have ready
access to information regarding the Fund’s holdings, the IIV, and quotation and last sale
information for the Shares. For the above reasons, the Exchange believes that the
proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any
burden on competition that is not necessary or appropriate in furtherance of the purpose
of the Act. The Exchange notes that the proposed rule change, rather will facilitate the
listing of an additional exchange-traded product on the Exchange, which will enhance
competition among listing venues, to the benefit of issuers, investors, and the
marketplace more broadly.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed
Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule
change.
III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will:

A. by order approve or disapprove such proposed rule change, or

B. institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

• Use the Commission’s Internet comment form

(http://www.sec.gov/rules/sro.shtml); or

• Send an e-mail to rule-comments@sec.gov. Please include File Number SR-CboeBZX-2020-070 on the subject line.

Paper comments:

• Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-CboeBZX-2020-070. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The
Commission will post all comments on the Commission’s Internet website (http://www.sec.gov/rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street, NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-CboeBZX-2020-070 and should be submitted on or before [INSERT DATE 21 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.21

J. Matthew DeLesDernier,
Assistant Secretary.
