Certain Steel Nails from the United Arab Emirates: Final Results of Antidumping Duty Administrative Review; 2018-2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On July 2, 2020, the Department of Commerce (Commerce) published the preliminary results of the administrative review of the antidumping duty order on certain steel nails (steel nails) from the United Arab Emirates (UAE). The period of review (POR) is May 1, 2018 through April 30, 2019. For the final results of this review, we continue to find that Middle East Manufacturing Steel LLC (MEM) made sales of subject merchandise at less than normal value during the POR.

DATES: Applicable [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

SUPPLEMENTARY INFORMATION:

Background

On July 2, 2020, Commerce published the Preliminary Results of the administrative review of the antidumping duty order on steel nails from the UAE.\(^1\) The administrative review covers one producer/exporter of the subject merchandise, MEM. We gave interested parties an opportunity to comment on the Preliminary Results. We received no comments. Hence, these final results are unchanged from the Preliminary Results.\(^2\)

Scope of the Order

The merchandise covered by this order includes certain steel nails having a shaft length up to 12 inches. Certain steel nails include, but are not limited to, nails made of round wire and nails that are cut. Certain steel nails may be of one piece construction or constructed of two or more pieces. Certain steel nails may be produced from any type of steel, and have a variety of finishes, heads, shanks, point types, shaft lengths and shaft diameters. Finishes include, but are not limited to, coating in vinyl, zinc (galvanized, whether by electroplating or hot-dipping one or more times), phosphate cement, and paint. Head styles include, but are not limited to, flat, projection, cupped, oval, brad, headless, double, countersunk, and sinker. Shank styles include, but are not limited to, smooth, barbed, screw threaded, ring shank and fluted shank styles. Screw-threaded nails subject to this order are driven using direct force and not by turning the fastener using a tool that engages with the head. Point styles include, but are not limited to,

\(^1\) See Certain Steel Nails from the United Arab Emirates: Preliminary Results of Antidumping Duty Administrative Review; 2018-2019, 85 FR 39884 (July 2, 2020) (Preliminary Results), and accompanying Preliminary Decision Memorandum (PDM).

\(^2\) On July 21, 2020, Commerce tolled all deadlines in administrative reviews by 60 days. The deadline for the final results of this review is now December 29, 2020. See Memorandum, “Tolling of Deadlines for Antidumping and Countervailing Duty Administrative Reviews,” dated July 21, 2020.
diamond, blunt, needle, chisel and no point. Certain steel nails may be sold in bulk, or they may be collated into strips or coils using materials such as plastic, paper, or wire.

Certain steel nails subject to this order are currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7317.00.55, 7317.00.65, and 7317.00.75.

Excluded from the scope of this order are steel nails specifically enumerated and identified in ASTM Standard F 1667 (2011 revision) as Type I, Style 20 nails, whether collated or in bulk, and whether or not galvanized.

Also excluded from the scope of this order are the following products:

- non-collated (i.e., hand-drive or bulk), two-piece steel nails having plastic or steel washers (caps) already assembled to the nail, having a bright or galvanized finish, a ring, fluted or spiral shank, an actual length of 0.500” to 8”, inclusive; an actual shank diameter of 0.1015” to 0.166”, inclusive; and an actual washer or cap diameter of 0.900” to 1.10”, inclusive;
- non-collated (i.e., hand-drive or bulk), steel nails having a bright or galvanized finish, a smooth, barbed or ringed shank, an actual length of 0.500” to 4”, inclusive; an actual shank diameter of 0.1015” to 0.166”, inclusive; and an actual head diameter of 0.3375” to 0.500”, inclusive;
- wire collated steel nails, in coils, having a galvanized finish, a smooth, barbed or ringed shank, an actual length of 0.500” to 1.75”, inclusive; an actual shank diameter of 0.116” to 0.166”, inclusive; and an actual head diameter of 0.3375” to 0.500”, inclusive;
- non-collated (i.e., hand-drive or bulk), steel nails having a convex head (commonly known as an umbrella head), a smooth or spiral shank, a galvanized finish, an actual
length of 1.75” to 3”, inclusive; an actual shank diameter of 0.131” to 0.152”, inclusive; and an actual head diameter of 0.450” to 0.813”, inclusive;

- corrugated nails. A corrugated nail is made of a small strip of corrugated steel with sharp points on one side;
- thumb tacks, which are currently classified under HTSUS 7317.00.10.00;
- fasteners suitable for use in powder-actuated hand tools, not threaded and threaded, which are currently classified under HTSUS 7317.00.20 and 7317.00.30;
- certain steel nails that are equal to or less than 0.0720 inches in shank diameter, round or rectangular in cross section, between 0.375 inches and 2.5 inches in length, and that are collated with adhesive or polyester film tape backed with a heat seal adhesive; and
- fasteners having a case hardness greater than or equal to 50 HRC, a carbon content greater than or equal to 0.5 percent, a round head, a secondary reduced-diameter raised head section, a centered shank, and a smooth symmetrical point, suitable for use in gas-actuated hand tools.

While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Final Results of the Administrative Review

As a result of this administrative review, we determine that the following weighted-average dumping margin exists for the POR:

<table>
<thead>
<tr>
<th>Producer/Exporter</th>
<th>Weighted-Average Dumping Margin (Percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Middle East Manufacturing Steel LLC</td>
<td>27.28</td>
</tr>
</tbody>
</table>
Assessment

Pursuant to section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.212(b), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. For MEM, because its weighted-average dumping margin is not zero or de minimis (i.e., less than 0.5 percent), Commerce has calculated importer-specific antidumping duty assessment rates. We calculated importer- (or customer-) specific ad valorem antidumping duty assessment rates by dividing the total amount of dumping calculated for the importer’s examined sales by the total entered value of the same sales for that importer, in accordance with 19 CFR 351.212(b)(1). However, for the reasons described in our preliminary results, we intend to issue assessment instructions to CBP on a per-unit basis.\(^3\)

For entries of subject merchandise during the POR produced by MEM for which it did not know its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company involved in the transaction. We intend to issue assessment instructions to CBP 15 days after the date of publication of the final results of review.

Cash Deposit Requirements

The following cash deposit requirements for estimated antidumping duties will be effective upon publication of the notice of final results of this review for all shipments of steel nails from the UAE entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act of these final results: (1) the cash

---

\(^3\) See Preliminary Results PDM at 11; see also Memorandum, “Antidumping Duty Administrative Review of Certain Steel Nails from the United Arab Emirates: Preliminary Results Analysis Memorandum for Middle East Manufacturing Steel LLC,” dated June 25, 2020 at 4-5, unchanged in these final results.
deposit rate for MEM will be 27.28 percent, the weighted-average dumping margin established in the final results of this administrative review; (2) for merchandise exported by companies not covered in this review but covered in a prior segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently-completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the producer is, then the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 4.30 percent, the all-others rate established in the investigation, adjusted for the export-subsidy rate in the companion countervailing duty investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby
requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

Notification to Interested Parties

Commerce is issuing and publishing these results in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.221(b)(5).

Jeffrey I. Kessler,
Assistant Secretary for Enforcement and Compliance.
