Accelerate Resources Ltd (ASX:AX8) managing director Yaxi Zhan joins Proactive to discuss the company's mission to become Australia's next manganese producer. Accelerate is focused on developing the Woodie Woodie North manganese project in WA, but it's also got lithium in the crosshairs at its nearby East Pilbara project. The company is cashed up following a \$3 million placement, designed to support manganese and lithium exploration in Australia's mining state.
