The mission statement at Advisors is that we take care of our Family, who help us take care of our Customers, which allows us to give back to our Community.

Advisors is on a constant mission to expand their presence across the country and with the addition of licensing in both Kansas and Virginia. The company has made it a priority to cater to their borrowers and make them feel as though they are part of the Advisors family; once a borrower, always a borrower. This is now a possibility in both states!

Speaking of the community, Advisors' is continuing to hold the majority of the local market share in the combined Monmouth County, NJ, and Ocean County, NJ markets. This marks the third year in row of being the leader in this area, and Advisors looks to keep it for many years to come, while also striving to obtain a market share lead in other major counties across the country.

A local happy client said, "Like many other families, we wanted to take a chance to purchase a home during these crazy times. We heard some horror stories from friends about their lenders and how the experience was difficult and awful. We will forever be thankful that we chose Advisors. We were taken care of from the very first day to the very last. All of our questions were answered and explained. There was never a moment when we felt out of loop or that we had no idea what was going on. Thank you doesn't seem like enough!"
