

# AmpliTech to Showcase Latest Product Wins at Satellite Show in Washington DC, And Attend MWC Show in Barcelona And APS Show in Las Vegas

NEWS RELEASE BY AMPLITECH GROUP, INC.

Hauppauge, NY, | February 27, 2023 09:15 AM Eastern Standard Time

**AmpliTech Group, Inc.** (NASDAQ: **AMPG**), a designer, developer, and manufacturer of state-of-the-art signal-processing components for satellite, 5G, and other communications networks and a worldwide distributor of packages and lids for integrated circuit assembly, is pleased to announce its participation in three upcoming shows, where it will exhibit its latest technological advancements at the Satellite Show in Washington DC, at Booth #2092. AmpliTech Group is also attending the Mobile World Congress (MWC) Show in Barcelona, and the American Physical Society (APS) show in Las Vegas, to participate with key players in the 5G and Quantum Computing industries.

At the MWC Show (Feb 27th - Mar 2nd, 2023), focused on advancements in connectivity and communication infrastructure, AmpliTech will meet with connectivity experts in the 5G, Metaverse, and high-performance computing space to speak on how AmpliTech amplifiers can promote higher system throughput and decrease network downtime in next-gen communication systems. Additional information on this show can be found at <https://www.mwcbarcelona.com>.

At the APS show (Mar 5 - 10, 2023), focused on breakthroughs in physics including quantum computing, AmpliTech will showcase its cryogenic quantum amplifiers and speak to organizations in the quantum space to demonstrate how these amplifiers could amplify signals and suppress noise in quantum systems to improve the speed of quantum calculations. Additional information on this show can be found at <https://march.aps.org>.

AmpliTech will also exhibit its latest products and innovations at the Satellite Show (March 14-16, 2023) in Washington DC, focused on satellite and space technology. At the event, the company will debut its newly released Monolithic Microwave Integrated Circuit (MMIC) amplifiers and exhibit its line of space-grade amplifiers and passive components. AmpliTech's team will be available at Booth #2092 for customer questions and product demonstrations. Additional information on this show can be found at <https://www.satshow.com>.

AmpliTech is renowned for its ability to provide complex, custom solutions for a wide range of markets, including Commercial, SATCOM, Space, Defense, and Military. The company's product portfolio spans the frequency range from 50 kHz to 44 GHz and also features the lowest noise, lowest power-dissipating amplifiers on the market. AmpliTech also recently began offering system integration services to further reduce implementation complexity and lead times generally associated with rolling out next-gen communication systems.

Fawad Maqbool, CEO of AmpliTech Group, expressed his excitement for the company's participation in the upcoming shows, each of which covers one of their core industries - telecom, quantum, and SATCOM. "We are eager to showcase our latest technological advancements and meet with key players in the industry," he said. "As always, our top priority is providing our customers with the highest-quality components and subsystems that meet their unique needs. These shows present an excellent opportunity for us to strengthen our relationships with them and gain valuable insights into the latest trends and innovations in our industry."

At each event, AmpliTech's team of experts will be present to discuss the company's product offerings and answer any technical questions attendees might have.

### **About AmpliTech Group**

AmpliTech Group, Inc. designs, develops, manufactures, and distributes state-of-the-art radio frequency (RF) microwave components for global satellite communications, telecom (5G & IoT), space, defense, and quantum computing markets as well as systems and component design consulting services. In December 2021, AmpliTech completed the purchase of the assets and operations of Spectrum Semiconductor Materials Inc. a global specialty distributor of semiconductor components based in San Jose, CA. AmpliTech has a 13+ year track record of developing high performance, custom solutions to meet the unique needs of some of the largest companies in the global industries we serve. We are proud of our focused team's unique skills, experience and dedication, which enables us to deliver superior solutions, faster time to market, competitive pricing, excellent customer satisfaction and repeat business. ### **Safe Harbor Statement**

This release contains statements that constitute forward-looking statements. These statements appear in several places in this release and include all statements that are not statements of historical fact regarding the intent, belief or current expectations of the Company, its directors or its officers with respect to, among other things: (i) the Company's ability to execute its business plan as anticipated; (ii) trends affecting the

Company's financial condition or results of operations; (iii) the Company's growth strategy and operating strategy. The words "may" "would" "will" "expect" "estimate" "anticipate" "believe" "intend" and similar expressions and variations thereof are intended to identify forward-looking statements. Investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, many of which are beyond the Company's ability to control, and that actual results may differ materially from those projected in the forward-looking statements because of various factors. Other risks are identified and described in more detail in the "Risk Factors" section of the Company's filings with the SEC, which are available on our website. We undertake no obligation to update, and we do not have a policy of updating or revising these forward-looking statements, except as required by applicable law.
