

# Bybit Launchpad 2.0 Announces Medieval Empires (MEE) IEO

NEWS RELEASE BY BYBIT

## SINGAPORE | December 08, 2022 05:52 AM Eastern Standard Time

Bybit, the third most visited crypto exchange in the world, will list MEE, the utility token of Web3 strategy game Medieval Empires, on Bybit Launchpad 2.0.

Set in the fantastical and historical world in what is now modern-day Türkiye during the late 13th century, Medieval Empires is a massive multiplayer online role-playing game that invites its players to build towns while trading, fighting, and forging alliances. Featuring internationally acclaimed actor, Engin Altan Düzyatan as Kayi Tribe leader Ertuğrul Gazi, the game aims to provide a state-of-the-art gaming experience for fans of the historic figure and the actor, as well as traditional gamers and blockchain enthusiasts.

The MEE token, powered by Polygon, is the official utility token in the play-and-own blockchain game, granting holders voting rights, VIP status, access to exclusive NFTs, and early access to game features to elevate their immersive world building experience in Medieval Empires.

Bybit will host the initial exchange offering for Medieval Empires on Bybit Launchpad 2.0, a freshly revamped platform connecting communities to groundbreaking blockchain projects, with the full spot listing scheduled for Dec. 19.

Bybit Launchpad 2.0 gives users early access to some of the most sought-after tokens in the space. Bybit users can commit BIT to subscribe to token allocations, or participate in Launchpad 2.0's new lottery model where users stake a nominal amount of Tether (USDT) for the chance to win new token allocations. Users can also buy the best performing tokens from previous listings via the Launchpad.

Medieval Empires has recently completed a \$2.1 Million seed round. The successful funding round, which was supported by key opinion leaders in the space such as Evan Luthra, James Crypto Guru, Satoshi Stacker, Crypto King, and Davinci Jeremie, lays the groundwork for Medieval Empires to lead the mainstream adoption of blockchain gaming.

Bybit is a cryptocurrency exchange established in March 2018 that offers a professional platform where crypto traders can find an ultra-fast matching engine, excellent customer service and multilingual community support. Bybit is a proud partner of Formula One racing team, Oracle Red Bull Racing, esports teams NAVI, Astralis, Alliance, Virtus.pro,

Made in Brazil (MIBR) and Oracle Red Bull Racing Esports, and association football (soccer) teams Borussia Dortmund and Avispa Fukuoka.
