

# Critical Resources reports more high-grade lithium at Mavis Lake

DIGITAL ASSET DIRECT BY CRITICAL RESOURCES LTD

Melbourne, Victoria | December 15, 2022 02:00 PM Eastern Standard Time

Critical Resources Ltd (ASX:CRR) managing director Alex Cheeseman says the strike of known lithium mineralisation has been extended 550 metres based on 30 new drill hole assays generated at the Mavis Lake Lithium Project in Ontario, Canada, bringing total strike length to 1.3 kilometres. The latest set of assays continues to demonstrate consistently high grades of lithium, with several intersections grading in excess of 1.2% lithium and up to 4.2%.
